DYNAMICS AND IMPULSES – "REACH THE MAXIMUM"

The potential for creative development and performance improvement in gymnastics depends directly on the technical progress in the construction of gymnastics apparatuses. Here the names SPIETH and REUTHER rank among the authoritative pulse generators for gymnastics equipment. They are the founders of the pretensioning principle for gymnastic apparatuses, as a constructive element ensuring motion sequence of the gymnasts and supporting their safety.

Nowadays people all over the world practice gymnastics on SPIETH apparatuses. The wide area of application ranges from equipping olympic games up to clubs, schools and kindergarten. For many years, the company SPIETH has been well known as specialist for equipping training centers and supports the process from planning to realization.

The SPIETH assortment consists of competitive sports such as artistic gymnastics, rhythmic gymnastics, acrobatics, tumbling and aerobic as well as the SPIETH assortment "Gym & Fun" to build versatile exercise areas for kids and recreational gymnasts.

SPIETH GYMNASTICS - CRAFTSMANSHIP MADE IN GERMANY NOT ONLY IN THE PAST BUT ALSO IN THE PRESENT SINCE 1831
PRODUCTION, LOGISTICS, SERVICE AND SALES - JUST ONE STOP FOR OUR CUSTOMERS!

QUALITY MADE IN OUR MODERN FACILITIES IN ALTBACH AND KIRCHHEIM NEAR STUTTGART

Headquarter in Altbach

Logistics center in Kirchheim / Teck

WE ARE HERE FOR YOU - STRAIGHT FROM ALTBACH AND KIRCHHEIM TO THE WORLD

Nowadays people all over the world practice gymnastics on SPIETH apparatuses that are produced in our newly built headquarter in Southern Germany.

Our equipment is used at international competitions as well as in kindergarten, schools and clubs. All SPIETH competition apparatuses are certified by the world gymnastics federation "FIG". Some of our apparatuses are especially suitable for physical education and therefore GS certified by the TÜV.

We feel responsible for the safety of athletes while they are practicing and competing on our apparatus. Thus our equipment often excels official standards.

To reach those high standards we consider it important to not only focus on developing high quality gymnastics apparatus but furthermore on the whole process chain - from raw material to the finished product for our customers. For this reason, SPIETH is certified in quality management according ISO 9001:2015 norm.

Besides high quality standards for our products, the environmental friendly and resource-preserving use of materials plays an important role in our company. We use for example FSC certified sustainably grown wood for our production. Therefore SPIETH is certified in environmental management according ISO 14001:2015 norm.

SPIETH is member of the german sporting goods association.

WOULD YOU LIKE INDIVIDUAL ADVICE OR DO YOU HAVE QUESTIONS ABOUT OUR RANGE?

NEW

ANTI-VIRUS TECHNOLOGY PROTECTION COVERS

The new PVC technology with incorporated silver particles has the property to reduce viruses on the surface as follows:

15 minutes after contact by 95%, after 60 minutes even up to 98%.

- This technology has been tested by Virhealth, a laboratory specializing in antiviral and antibacterial testing
- In order to maintain the antiviral properties of the top layer; it is highly recommended to clean this surface regularly with a neutral cleanser
- With proper cleaning, the top layer of the mat retains its antiviral properties for up to 3 years
- Supports your hygiene actions in the gym
- PVC color: white

MAGNESIA CREAM

- Based on an alcoholic liquid it has a disinfecting ability
- Contains 80% alcohol
- The consistency is thicker than regular magnesia liquid
- Can be spread evenly on the hands and provides excellent grip
- Especially developed and tested for the use in gymnastics.
- The alcohol evaporates on the hands and leave the magnesia on the hands
- Reduces magnesia dust in the facility
- Bottle has to be shaken before use
- Supports your hygienic concept: one bottle per gymnast and no more gathering at magnesia stands

P. 14 - 19

VAULTING TABLE "ERGOJET RIO"

FIG-certified, ORIGINAL REUTHER

- The patented spring system provides improved resilience and stability especially at central and rear parts of the table
- Upper part with double reinforced fiberglass synthetic material and integrated spring system
- High padding for great safety

1407210	Vaulting Table "Ergojet Rio"
----------------	------------------------------

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565802 National mats set "Moscow" for Vault 600x250x20 cm or
- 1565807 National mats set "Basic" for Vault 600x250x20 cm
- optional:**
- 1566602 International mats set "Moscow" for Vault 600x300x20 cm or
- 1565808 International mats set "Basic" for Vault 600x300x20 cm
- 1540500 Landing mat "Happy Landing" 600x200x10 cm
- 1407230 Run-up and jumping device
- 1411714 Springboard "Moscow" 8
- 1411704 Springboard "Moscow" 5
- 1595310 Rondat mat
- 1540550 Hand safety mat
- 1389153 Magnesia stand "Munich"
- 1389161 Magnesia holder for feet

Necessary only for warm-up and training:

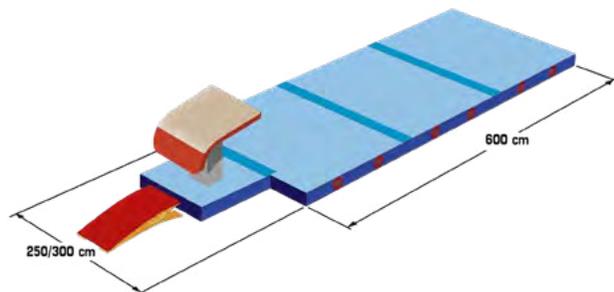

- 1540510 Landing mat "Happy Landing" 200x200x10 cm

VAULT

TECHNICAL DETAILS:

- Easy height adjustment with gas springs between 100 - 140 cm in 5 cm increments
- Built-in transport system with 4 swivel wheels
- Base: 110 x 94 cm
- Height adjustment on the side for higher security
- Well-balanced combination of steel spring and foam buffers

Movie Vaulting Table "Ergojet Rio"

RUN-UP AND JUMPING DEVICE

- Consist of a non-slip support for the springboard and run-up track
- Total length: 25 Meter long, 1 Meter wide, 25 mm thick
- Shock absorbent foam
- Top side covered with blue needle felt
- Including measurement tape and roll-up core

1407235 25 x 1 m

RESILIENT SUBSTRUCTURE FOR RUN-UP TRACK

- Without installation
- Especially suitable for training centers
- Reduces impact forces on joints
- Without Run-up Track

please contact us

RUN-UP TRACK

- Run-up track without jumping device
- Top side with needle felt
- Anti-slip base
- 25 meters long, 1m wide, 25 mm thick
- Including roll-up core

1884128 25 x 1 m only Run-Up Track

RONDAT MAT

- Safety mat for a competition springboard
- Mat surrounds the springboard on 3 sides
- High-density foam with a reinforced PVC-cover
- Mandatory for all FIG competitions

1595320 SHORT 120 x 100 cm

1595310 LONG 140 x 120 cm

HAND SAFETY MAT

- Soft mat for rondat vaults
- Recommended for rondat vaults to reduce impact on wrists
- Also suitable for methodical training on Vault
- Easy to clean (PVC)

1540550 120 x 100 x 3 cm

BASE PADDING

- included in Mats Set

LANDING MAT "HAPPY LANDING" WITH MARKING OF LANDING ZONE

- Landing mat 600 x 200 x 10 cm with marking lines for landing zone Vault
- Cover made of easy to clean PVC
- Anti-slip base
- Reduces impact on landings
- Mandatory for all FIG competitions

1540500 600 x 200 x 10 cm with marking lines for landing zone Vault

MATS SET VAULT

- FIG-certified
- Mats set for competitions on Vault
- With reinforced edging and needle felt surface
- Round ventilation cutouts that serve simultaneously as handy grip
- Homogenous landing area
- Base padding for Vaulting Table is included (art. 2240706)

1566602 "Moscow" 600 x 300 x 20 cm

1565808 "Basic" 600 x 300 x 20 cm

MATS SET VAULT NATIONAL

- FIG-certified
- Same as the mats set 1566602 but with dimensions 600 x 250 x 20 cm
- Base padding for Vaulting Table is included (art. 2240706)

1566802 "Moscow" 600 x 250 x 20 cm

1566807 "Basic" 600 x 250 x 20 cm

TEAMGYM VAULTING TABLE "PEGASES"

- Vaulting Table with adapted height adjustment for TeamGym
- Height adjustment in 5 cm increments between 125 - 165 cm
- Easy to adjust thanks to gas spring
- Anti-slip cover
- Built-in transport system is included

1407314

Height adjustment from 125 - 165 cm in 5 cm increments

LANDING AREA "SPIETHWAY"

- Suitable for TeamGym-Vault and Tumbling Track "SPIETHway III"
- With marking of landing zones 400 x 200 cm in yellow

2205124

600 x 300 x 30 cm with marking lines

TEAMGYM TRAMPOLINE "DORADO"

- High performance trampoline developed for TeamGym
- Stable rectangular tube frame 124 x 124 cm
- Extremely powerful due to free-swinging springs
- 40 steel springs
- Jumping bed 60 x 60 cm
- Black frame padding

1495050

124 x 124 cm frame

FOAM VAULTING TABLE

- Methodical Vaulting Table made of foam with PVC-cover
- Top surface made of anti-slip artificial leather
- Base 90x75 cm
- All pieces are connected with Velcro
- Overall height is variable: 50, 75, 100 or 125 cm

1407164	A 50 cm
	B 25 cm
	C 50 cm

ADDITIONAL FOAM BLOCK

- Additional foam block to create more height variations of the foam Vaulting Table
- Sturdy foam block
- 40 cm height
- Connectable to foam Vaulting Table with Velcro

4172705	90 x 75 x 40 cm
----------------	-----------------

VAULTING TABLE "ERGOJET CLUB"

- Suitable for schools and clubs
- Large surface with a soft padding
- Built-in transport system for easy storage
- 2-piece padding of column
- Height adjustment with gas spring between 90 - 135 cm

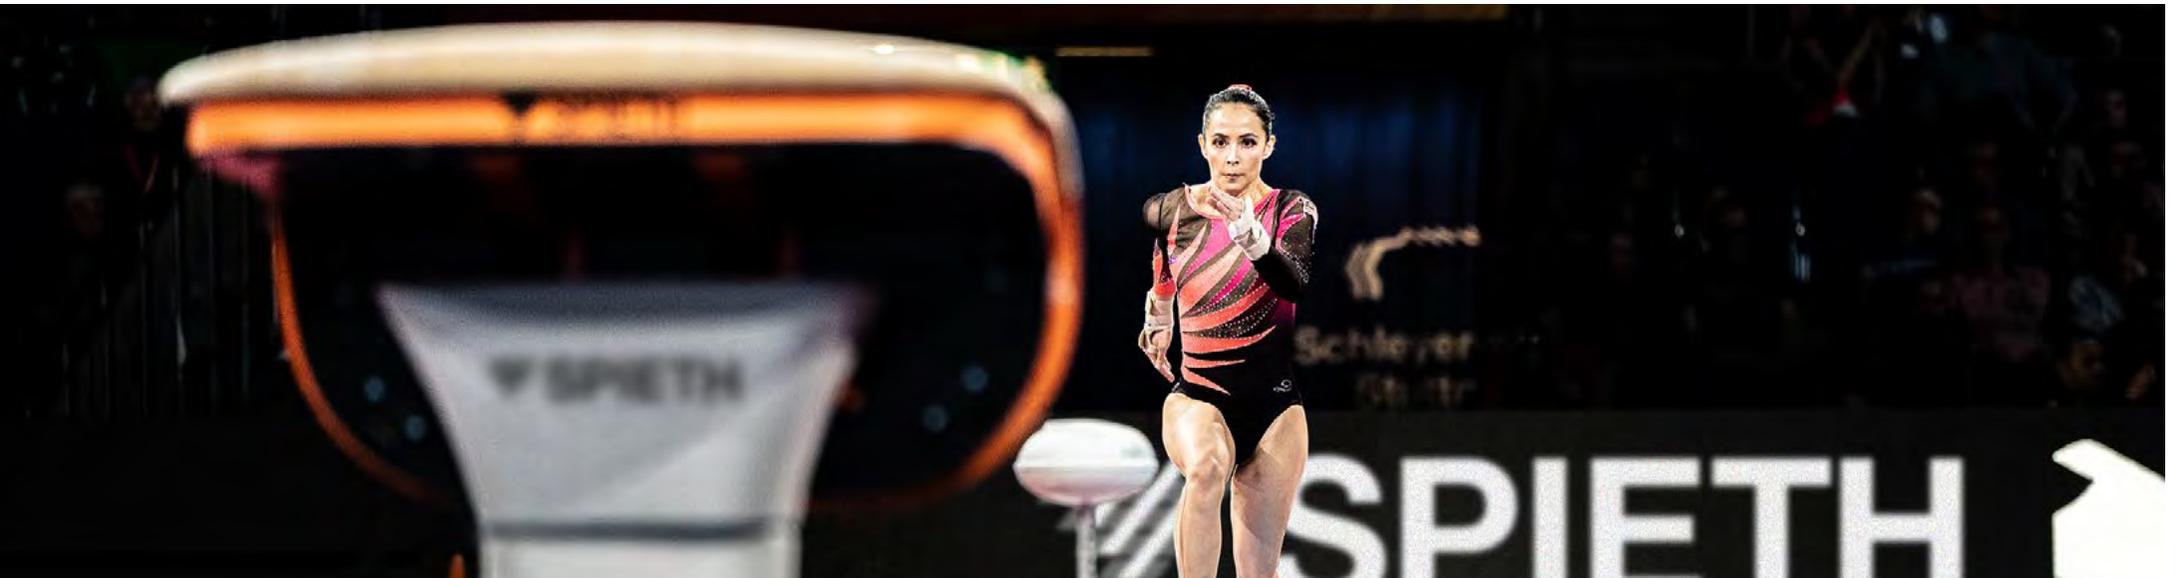

1407174	Height adjustment from 90 - 135 cm
----------------	------------------------------------

VAULTING TABLE "ERGOJET JUNIOR"

- Mini-Vaulting Table for children and teenager
- Ergonomical shape and large surface
- Shock-absorbing and resilient foam core
- Quick and easy height adjustment
- Sturdy hard-wearing rubber caps
- Fine adjustment and castors included
- Height adjustable between 85 - 135 cm

1407198	Height adjustment from 85 - 135 cm
----------------	------------------------------------

VAULT

PVC PROTECTION COVER FOR "ERGOJET" AND "ERGOJET RIO"

- Blue cover made of PVC applies as dust protection and to transport it safely
- Quick and easy to fit with elastic straps

1407203 for "Ergojet" and "Ergojet Rio"

FLEECE COVER FOR "ERGOJET"

- Original fleece cover for Vaulting Table "Ergojet"
- Fixation by means of integrated belt system
- Additional shock-absorbing foam reduces impact on wrists
- Protects "Ergojet" from wear and covers smaller damages on the surface

4510260 for "Ergojet"

FLEECE COVER FOR "ERGOJET RIO"

- Original fleece cover for Vaulting Table "Ergojet Rio"
- Fixation by means of integrated belt system
- Topstitched on edges
- Protects "Ergojet Rio" from wear and covers smaller damages on the surface

4510269 for "Ergojet Rio"

Rebound: ●●●○
Training level: ●○○○

SPRINGBOARD "SKIPPY"

ORIGINAL REUTHER

- For children age 6 to 12
- Suitable for body weight up to 45 kg
- Longer springs with extra rebound for methodical and training purposes
- Less impact on joints

1411784 | 100 x 55 x 21 cm (discontinued model)

UNEVEN BARS

P. 24 - 29

UNEVEN BARS "BERN EXCLUSIVE"

FIG-certified, ORIGINAL REUTHER

- New "Fiberflex" rails with hard-wearing natural fiber veneer
- With patented double tensioning system and two slide adjusters
- Reinforced metal tubes
- High rail: height adjustable in 5 cm increments between 230 - 290 cm
- Low rail: height adjustable in 5 cm increments between 150 - 200 cm
- Distance between rails: 110 - 185 cm
- Width adjustment with cm-scale
- Built-in transport system

NEW
from 2022:
heights
+5 cm

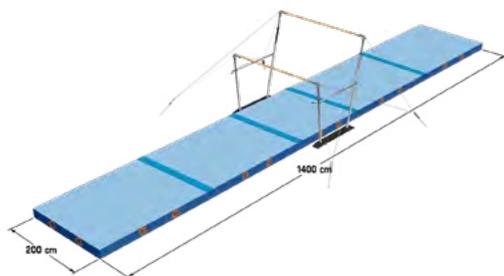

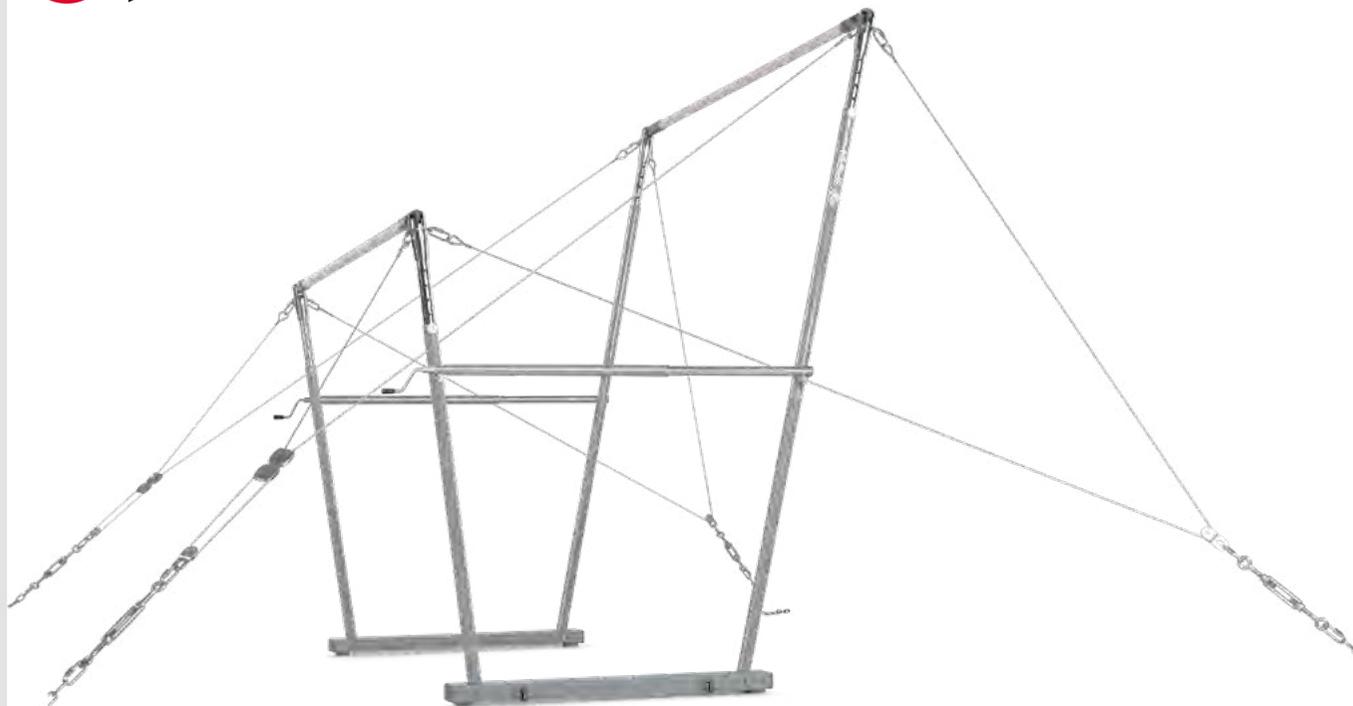

1383210	"Bern Exclusive"	with "Fiberflex" rail
1383200	"Bern"	with "Carboflex®" rail, otherwise identical to Uneven Bars "Bern Exclusive"

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565812 Mats set "Moscow" for Uneven Bars
- **or**
- 1565817 Mats set "Basic" for Uneven Bars
- 1540505 Landing mat "Happy Landing" 400x200x10 cm
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"
- 1383198 Height adaption blocks 10 cm (allowed until 12-2021)
- 1540225 Trainer support 50x50x50 cm

Necessary only for warm-up and training:

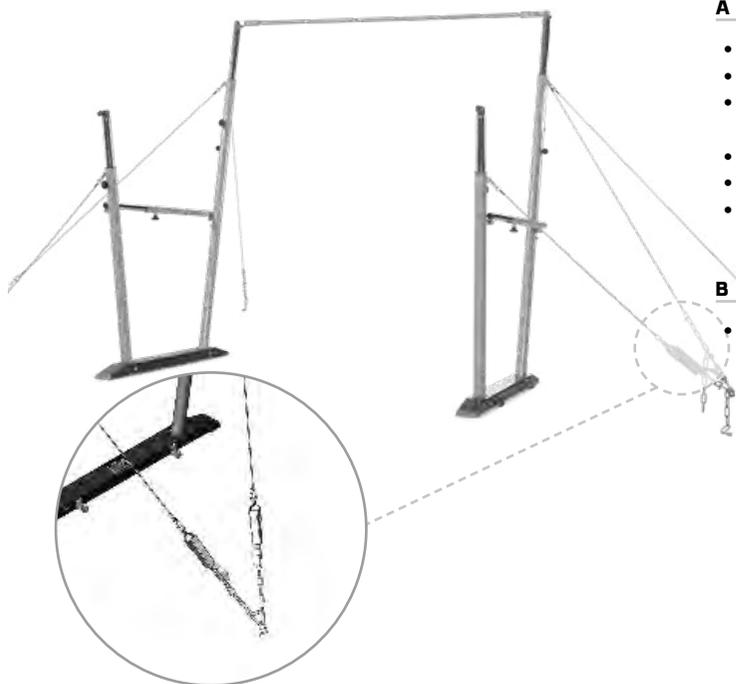

- 1540509 Safety spotter mat "Happy Landing" 200x100x12 cm

TECHNICAL DETAILS:

- Steel cables with patented double tensioning are directly attached to the Uneven Bars head
- This unique construction supports an optimal swing behaviour of rails and therefore the gymnast receives homogenous swing characteristic on the upper and the lower rail

UNEVEN BARS RAILS - COMPETITION

- A 2204830** "FIBERFLEX"
- Fiberglass with new and hard-wearing natural fiber veneer
 - The natural fiber provides great grip
 - Preparation time for rails is on average shorter and less magnesia is necessary
 - Can be washed off with water
 - Diameter 40 mm, length 240 cm
 - Suitable for Uneven Bars "Bern" (art. 1383200) and "Bern Exclusive" (art. 1383210)

- B 2204130** "CARBOFLEX"
- Round Fiberglass rail with wooden veneer and casted end tips

UNEVEN BARS RAILS "CLUB"

- Rails with this kind of casted end tips are suitable for Uneven Bars "Kombi" (art. 1383128) and "Club" (art. 1383124)
- Furthermore compatible with training Horizontal Bar "Club" (art. 1384094), methodical Horizontal Bar "Club" (art. 1384224) and Horizontal Bar supports (art. 1384080)

- C 2204825** "FIBERFLEX CLUB"

- With same characteristics as the competition model

- D 2202205** "CARBOFLEX® CLUB"

- With same characteristics as the competition model

- E 4140705** HORIZONTAL BAR RAIL "CLUB"

UNEVEN BARS "KOMBI"

- Versatile construction of Uneven Bar for training purposes, which is also usable as 1-rail module
- The quick-lock system and fast tensioning devices enable an efficient height adjustment and a fast exchange of rails
- High rail is height adjustable in 5 cm increments between 215 - 280 cm and the low rail is height adjustable in 5 cm increments between 140 - 190 cm
- Width adjustment in 5 cm increments between 120 - 210 cm
- Two Uneven Bar fiberglass rails are included to the scope of delivery
- Suitable with Horizontal Bar rail (art. 4140705)

1383135	with "Fiberflex" rails
1383128	with "Carboflex®" rails

For Uneven Bars Competition ("Bern" & "Bern Exclusive")

A 2204830	Fiberglass rail "Fiberflex"	
B 2204130	Fiberglass rail "Carboflex®"	

For Uneven Bars "Club" (Kombi, Club)

C 2204825	Fiberglass rail "Fiberflex Club"	
D 2202205	Fiberglass rail "Carboflex® Club"	
E 4140705	Horizontal Bar rail „Club“	

i WE STRONGLY RECOMMEND TO REPLACE RAILS AT LEAST EVERY 3 YEARS.

FREESTANDING UNEVEN BARS "CLUB"

Freestanding Uneven Bar for training purposes

- Without tensioning - no floor anchors needed
- Easy to adjust with quick-lock system
- Width adjustment in 5 cm increments between 120 - 210 cm
- Height adjustment:
 - upper rail: in 5 cm increments between 215 - 280 cm
 - lower rail: in 5 cm increments between 140 - 190 cm
- Built-in transport system
- Tensioning is optional attachable (art. 2203314)
- Suitable with Horizontal Bar rail "Club" (art. 4140705)

1383124	with "Carboflex®" rails
----------------	-------------------------

1383130	with "Fiberflex" rails
----------------	------------------------

i MORE RAILS ARE TO FIND ON P. 26.

MATS SET FOR UNEVEN BARS "CLUB"

Foldable landing mats for easy storage and transport

- The set consist of 1 Center mat and two foldable landing mats 200 x 200 x 20 cm
- Including 2 velcro strips for the mats and 4 velcro straps for fixation at rails in folded position

1566700	Set Landing Mats "Moscow"
----------------	---------------------------

1566705	Set Landing Mats "Basic" (PVC)
----------------	--------------------------------

TENSIONING FOR UNEVEN BARS "CLUB"

Tensioning system for freestanding Uneven Bars "Club" (art. 1383124 / 1383130)

- Comprises cables, turnbuckles, chains and fast tensioning devices
- Provides additional stability
- Suitable as well for Uneven Bars "Kombi" (art. 1383128 / art. 1383135)

2203314	tensioning
----------------	------------

CENTER MAT

- Center mat for freestanding Uneven Bar "Club"
- Center mat can be connected to standard landing mats with velcro strings
- Dimensions: 225 x 85 x 20 cm

2240867	"Moscow"
----------------	----------

2241367	"Basic" (PVC)
----------------	---------------

NEW

TCS-TENSION CONTROL SYSTEM

- FIG-approved
- For Uneven Bars, Horizontal Bar, Rings (frame)
- Prevention of too low or too high tensioning thanks to the tensioning measuring device with easy to read digital display
- When tensioning becomes too low or too high, it is shown by means of a flashing light signal
- Per tensioned gymnastic apparatus is one tensioning control system necessary

1760950	TCS - Tension Control System
----------------	------------------------------

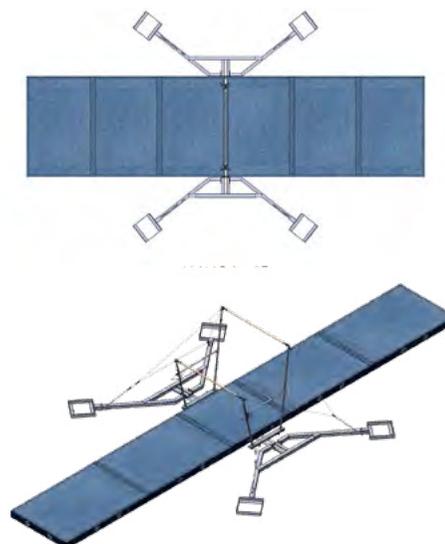

i MORE METHODICAL BLOCKS AND TRAINER SUPPORTS ARE AVAILABLE ON P. 72.

TRAINER SUPPORT

- Podest made of hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and furthermore for gymnasts to prepare the apparatus

1540225	50 x 50 x 50 cm
----------------	-----------------

FREESTANDING CONSTRUCTION - UNEVEN BARS

Thanks to our freestanding construction it becomes possible to anchor gymnastic apparatuses in places where anchoring is impossible. The gymnastic apparatus is anchored on a steel frame with four arms and weights on each end.

This freestanding construction is suitable for the apparatuses Uneven Bars, Still Rings, and Horizontal Bar; only different amounts of weights are necessary.

For one freestanding construction a base area of around 7,5x6 m is necessary.

Please request the required individual amount of weights separately.

2205070	Freestanding Construction
----------------	---------------------------

i PLEASE GET IN CONTACT WITH US FOR FURTHER INFORMATION ABOUT FREESTANDING CONSTRUCTIONS

TRAINER PLATFORM "CLUB" UNEVEN BARS

- Height adjustable trainer platform for Uneven Bars and Horizontal Bar
- Folds up automatically by means of a gas spring
- Height adjustable in 10 cm increments between 137 - 197 cm
- Size of platform: 140 x 50 cm
- The trainer platform is not attached to the apparatus and thus does not influence its characteristics
- Ideal for installed training centers and at pit systems
- Floor anchoring is necessary (delivery without mounting material)

1490373 4 pillars

1490370 2 pillars

REBOUNDER

- Base frame with height adjustable tubes (ca. 65 - 105 cm), one rail and one, respectively two elastic cords
- Great methodical device to practice swings to handstand position
- Strengthening of core and back musculature
- Mat can be ordered separately (art. 1403464)

1403414 Double Rebounder

1403418 Single Rebounder

SAFETY CUSHION ROLL

- Soft safety cushion for Uneven Bars rail
- Fixation by means of Velcro

1383070 Diameter 8 cm, length 70 cm

SAFETY CUSHION

- U-shaped safety padding for Horizontal Bar, Parallel Bars and Uneven Bars
- With a handle on the short side for quick and easy slide in and out
- Cover made of blue PVC
- Easy to attach with Velcro

1760301 Length 140 cm

BALANCE BEAM

P. 30 - 35

BALANCE BEAM "SOFT TOUCH"

FIG-certified, ORIGINAL REUTHER

- Reduced impact forces on joints thanks to new "Soft Touch" technology
- A new shape of the aluminium profile makes the Balance Beam appear optically wider
- Optimum grip and training comfort with hygroscopic top layer
- Soft rubber endcaps provide stability and prevent floor damage
- Very stable steel legs with durable powder-coating

1414210	Soft Touch
---------	------------

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565842 Mats set "Moscow" for Balance Beam
- **or**
- 1565847 Mats set "Basic" for Balance Beam
- 1540505 Landing mat "Happy Landing" 400x200x10 cm
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"
- 1566080 Balance Beam Padding "Competition"

Necessary only for warm-up and training:

- 1540510 Landing mat "Happy Landing" 200x200x10 cm

TECHNICAL DETAILS:

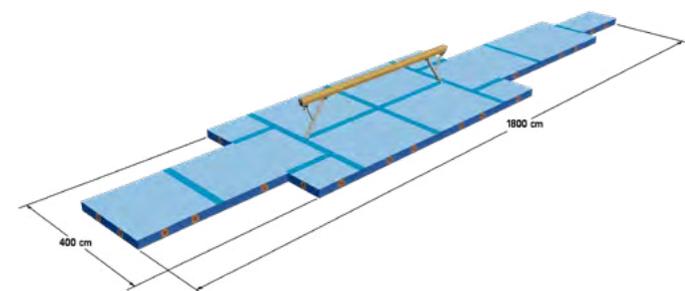

- Patented, exchangeable cover
- Length: 500 cm
- Width beam surface: 10 cm
- Width beam base: 117 cm
- Height: adjustable between 75 - 125 cm in 5 cm increments
- Beam core made of torsion-free thick wall aluminium

HERE

MOVIE: BALANCE BEAM
"SOFT TOUCH"

BALANCE BEAM

BALANCE BEAM "CLUB"

- Soft training Balance Beam with special cushion for joint-friendly training
- Comfortable soft top
- Easy to adjust in height by means of gas springs
- Beam base remains in the same position while adjusting height, therefore it is not necessary to move the mats
- Height adjustable between 60 - 130 cm

1414034	"Club" 10 cm wide
1414114	"Club Maxi" 20 cm wide (discontinued model)

TRAINING BEAM

- Aluminium beam on wooden base
- Cover with hygroscopic synthetic leather
- 25 cm high
- Resilient through curved wooden base

Overview training beam		
1414076	Training Beam Barcelona	Länge 300 cm, Breite 10 cm
1414301	Training Beam Soft	Länge 500 cm, Breite 10 cm
1414118	Training Beam Soft (discontinued model)	Länge 500 cm, Breite 20 cm
1414312	Training Beam Soft Touch	Länge 500 cm, Breite 10 cm

TRANSPORT TROLLEY

- Suitable for Balance Beam and Pommel Horse "Junior"
- Stable construction
- 4 ball-bearing swivel wheels
- Sturdy epoxy coating
- No sharp edges

1522084 | per piece

BALANCE BEAM BASE "GYM"

- Two different heights are available
- Suitable with SPIETH landing mats underneath the beam base (40 cm)
- With its wide supporting surface those beam bases (25 cm) are especially suitable to use on landing mats in training centers
- Balance Beam is not included in the scope of delivery (only legs)

2204815 | per piece, total height incl. beam: 25 cm

2204820 | per piece, total height incl. beam: 40 cm

ANTI-VIRUS PVC COVER BALANCE BEAM

The new PVC technology with incorporated silver particles has the property to reduce viruses on the surface

- Covers the 500 x 10 cm beam surface
- Quick and easy to fit with velcro
- Offers protection during transport and storage
- For a balance beam with the length 5 m
- Color: white

1490075 | per piece

i MORE INFORMATION ON ANTI-VIRUS PRODUCTS ON PAGE 10-13.

PVC-COVER BALANCE BEAM

- Covers the 500 x 10 cm beam surface
- Quick and easy to fit with velcro
- Offers protection during transport and storage
- For a balance beam with the length 5 m
- Color: blue

1490070 | ca. 500 x 16 x 18 cm

REPAIR COVER BALANCE BEAM "BARCELONA"

- Easy to put on, suitable for Balance Beam "Barcelona"
- This cover is a handy alternative to prolongen the use of your existing Balance Beam and to cover up smaller damages in the upholstery
- Fixation and tensioning of cover by means of Velcro and plastic cords
- Slips over existing upholstery, no need to remove it

1490060 | Repair cover

COVER BALANCE BEAM - "SOFT TOUCH"

- Patented, exchangeable Balance Beam cover only suitable for competition Balance Beam "Soft Touch"
- Original competition cover for easy replacement on side

1414905 | Cover "Soft Touch"

PADDING "COMPETITION"

- Safety padding for competition Balance Beam "Soft Touch"
- Mandatory at FIG competition
- Preshaped foam
- Soft needle felt top layer
- Easy to fit with Velcro
- 2 pieces are necessary for one competition Balance Beam

1566080 | per piece

PADDING "TRAINING"

- Safety padding for Balance Beam to prevent injuries during training
- Easy to fit with Velcro
- No need to remove the padding while adjusting the height
- Suitable for Balance Beam "Barcelona" and "Soft Touch"

2511323 | per pair

PADDING "CLUB"

- Safety padding for Balance Beam to prevent injuries during training
- Easy to fit with Velcro
- No need to remove the padding while adjusting the height
- Suitable for the Balance Beams "Club Soft" (art. 1414034) and "Club Maxi" (art. 1414114)

1566068 | per piece

FOAM BALANCE BEAM 2,5 M

- Training beam made of special hard foam with white marking on top
- With PVC-cover and anti-slip surface
- Velcro on bottom side for fixation to landing mats
- With Velcro adaption at the ends to attach further foam beams

1540371	250 x 15 cm / 25 x 8 cm
----------------	-------------------------

ROLLABLE BALANCE BEAM

- Rollable Balance Beam made of foam
- Length and width correspond to competition Balance Beam
- Ideal for practising at home
- Easy to store

1495297	500 x 10 x 2,5 cm
----------------	-------------------

AIRBEAM

- Fast inflatable mat with blue marking for better orientation
- Marking 10 cm wide, correspond to width of Balance Beam
- Bottom side with anti-slip cover
- Including a carry bag and a repair kit
- Mini-blower (art. 1740115) is not included

1740139	300 x 40 x 10 cm
----------------	------------------

1740140	500 x 40 x 10 cm
----------------	------------------

MULTI MAT

- Great training mat for Balance Beam and Uneven Bars
- Soft safety mat with high shock-absorbing characteristics
- Made of high quality foam
- Anti-slip material on the bottom
- Adapts easily to the apparatus on which it is positioned

1540620	150 x 100 x 1,5 cm
----------------	--------------------

SURFACE EXPANDER 20 CM

- Surface expander for SPIETH Balance Beam
- Preshaped for a perfect fit on the Balance Beam
- Easy to attach by means of Velcro
- Ideal training and methodic aid
- For learning new elements
- Suitable for all SPIETH Balance Beams with 10 cm width

1414190	Length 200 cm, Width 20 cm
----------------	----------------------------

1414191	Length 300 cm, Width 20 cm
----------------	----------------------------

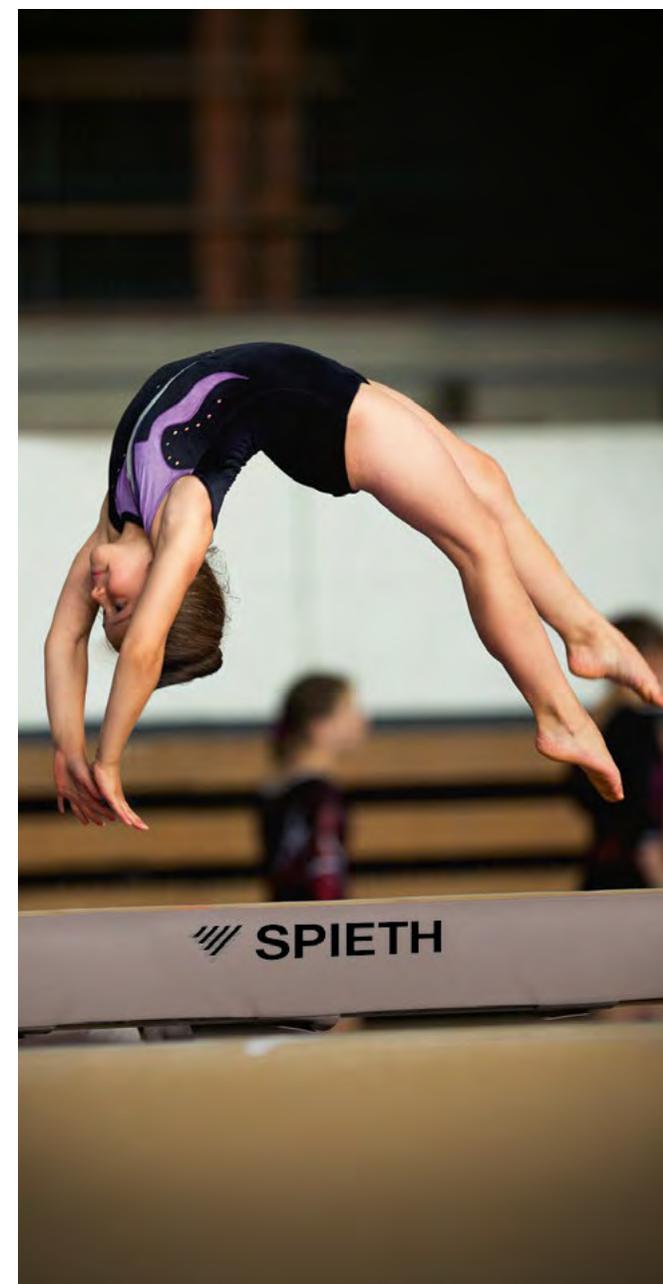

TRAINING PAD

- Original Balance Beam surface
- Soft and stable upholstery
- Suitable for all SPIETH Balance Beam with 10 cm width
- Reduces impact on joints during repetitive training and reduces risk of injuries

1414085	100 cm long
----------------	-------------

1414086	200 cm long
----------------	-------------

FLOOR & TUMBLING

P. 36 - 39

 **SPIETH**

ELASTIC SWING FLOOR "MOSCOW" 14X14M

- **FIG-certified, ORIGINAL REUTHER**
- High quality competition floor with a 3 layer composition
- Substructure with unique spring system for maximum dynamics and superior comfort
- Provides optimal balance between bouncing characteristics during take off and shockabsorption during landings
- Dynamic homogeneity all over the floor
- Height: 20 cm
- Overall: 14 x 14 m, competition area: 12 x 12 m
- The elastic swing floor is available in two alternatives:

- Completely assembled:

The panels of the elastic swing floor are completely assembled and ready to get set up

- Partially assembled:

Springs need to be attached into the springholders on the wooden panels. The volume of transport is significantly reduced.

1790751	completely assembled (14 x 14 m)
1790752	partially assembled (14 x 14 m)
1780759	partially assembled (13 x 13 m) competition area: 12 x 12 m same characteristics as "Moscow" floor

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1389161 Magnesia holder for feet (2x)
- 1389153 Magnesia stand "Munich"

Necessary only for warm-up and training:

- 1540510 Landing mat "Happy 200x200x10 cm"

i ALSO SUITABLE FOR
ACROBATIC COMPETITIONS

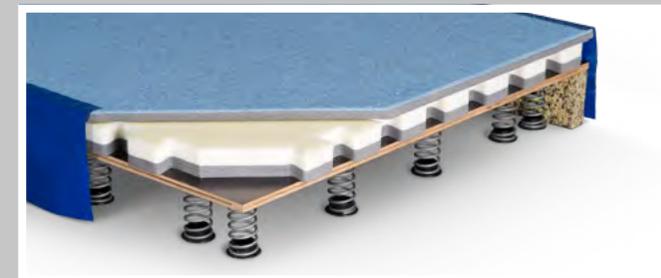

i THE ELASTIC SWING FLOOR IS ALSO
AVAILABLE IN INDIVIDUAL DIMENSIONS.
PLEASE CONTACT US FOR FURTHER
INFORMATION.

TECHNICAL DETAILS:

- 74 water resistant, 15 mm coated plywood panel with tempered steel springs. There are: 50 elements size 120 x 240 cm, 20 elements size 100 x 240 cm, 4 elements size 100 x 100 cm
- 196 puzzle shaped foam pieces (50 mm high)
- 7 rollable mats with special foam and needle-felt cover, each 14 x 2 m x 20 mm
- Rollable mats are connected by 6 Velcro tapes with needle felt cover
- 4 white Velcro tapes for marking of competition area

TRANSPORT TROLLEYS FOR "MOSCOW" FLOOR

1590055	A Transport trolley for rollable mat
1590050	B Transport trolley for 14 floor elements*
1522178	C Transport trolley for puzzle shaped foam pieces

*REMARK: Always store panels upright and never pile them up.

LANDING MAT "HAPPY LANDING"

- Including zipper
- Dimensions: 200 x 200 x 10 cm

1540510	Cover made of blue PVC
1540511	Cover made with canvas

PVC SKIRTING "MOSCOW" FLOOR 14X14M

- Darkblue skirting to surround the elastic swing floor
- Serves as dust protection and provides an uniform appearance.

2511137	14 m long
----------------	-----------

MARKING TAPE

- For Elastic Swing Floor "Moscow"
- For marking the competition area
- White Velcro
- 5 cm wide

7623064	per running meter
6149320	12 m

VELCRO TAPE

- For Elastic Swing Floor "Moscow" - to connect the rollable mats
- SPIETH-blue
- Width: 9,6 cm
- With needle felt cover

7623088	per running meter
6149430	14 m

COMPETITION TUMBLING TRACK "SPIETHWAY III"

- **FIG-certified, ORIGINAL REUTHER**
- Competition Tumbling Track with stable steel frame, fiberglass rods and plastic adapters for better distribution of pressure
- Comprises 21 pieces, each 121 x 200 cm
- Rollable mat with hard-wearing needle felt "TRIFLEX"® with integrated grid material providing additional protection and durability of mat
- Carefully matched materials provide highest elasticity and reduces impact forces
- Also suitable for training in gymnastics centers
- Length 25,41 m
- Individual lengths available on request

1790210	25,41 m length
----------------	----------------

Suitable with:

2511266	Run-up track (10 x 1m)
----------------	------------------------

LANDING AREA "SPIETHWAY"

- Suitable for Tumbling Track "SPIETHway III" & TeamGym
- Dimensions: 600 x 300 x 30 cm
- With marking of landing zones 400 x 200 cm in yellow

2505124	600 x 300 x 30 cm
----------------	-------------------

TUMBLING TRACK "MOSCOW"

- Same composition as FIG-certified Elastic Swing Floor "Moscow"
- Water resistant, coated plywood panels
- Spring system made of tempered steel
- Puzzle shaped foam pieces, each 100 x 100 x 5 cm
- Special rollable mat with needle felt in SPIETH-blue
- Height ca 20 cm
- Also available in different lengths and delivery alternatives:

assembled:	
1790764	12 m, 10 elements
1790766	14 m, 12 elements
1790765	18 m, 15 elements
partially assembled	
1790762	12 m, 10 elements
1790770	14 m, 12 elements
1790760	18 m, 15 elements

Further lengths available on request!

- Suitable for Tumbling Track "Mosow"

1590055	A Transport trolley for rollable mat
1590050	B Transport trolley for 14 floor elements
1522178	C Transport trolley for puzzle shaped foam pieces

i

THE CORRECT STORAGE OF YOUR TUMBLING TRACK OR ELASTIC SWING FLOOR IS IMPORTANT TO PREVENT DAMAGES AND TO ENSURE A LONG USE. ALWAYS STORE THEM UPRIGHT AND NEVER PILE THEM UP

TUMBLING TRACK "STUTTGART"

- Composition with plywood panels connected by velcro to lower panels with elastic foam pieces
- One element is 122 cm long and 200 cm wide
- Height ca. 12,5 cm with velcro tapes on the sides to attach a rollable mat
- Delivery without rollable mat
- The SPIETH rollable mats "FLEXIROLL®" or "TRIFLEX®" are recommended to use (see page 43)

assembled:	
1790421	1 element, 1,22 m long
2511290	9 elements, 10,98 m long
2511292	11 elements, 13,42 m long
partially assembled	
1790411	1 element, 1,22 m long
1790413	9 elements, 10,98 m long
1790415	11 elements, 13,42 m long

Further lengths available on request!

TRANSPORT TROLLEY FOR TUMBLING TRACK "STUTTGART"

Transport trolley suitable for 12 - 15 elements of Tumbling Track "Stuttgart"

1590094	12 - 15 elements
----------------	------------------

AIRTRACK MAXIMUM

- Thanks to bonded and sealed seams the Airtrack Maximum is sturdy and durable
- The special construction inside ensures stability and a good rebound
- Blue lines give more orientation and help in methodical training
- A versatile flat track - ideal for using in clubs, schools and kindergarten

1740124	15 x 2 x 0,2 m
1740125	15 x 2 x 0,3 m
1740123	12 x 2 x 0,15 m
1740120	10 x 2 x 0,1 m
1740121	10 x 2 x 0,2 m
1740122	10 x 2 x 0,3 m

i MORE AIR ASSORTMENT ARE AVAILABLE ON PAGE 86.

MINI-BLOWER AIRTRACK

- Compact blower for Airtrack
- Rapid inflation and deflation
- Fitted with a thermal cut-out

1740250	230 V / 1000 W (EU)
1740251	120 V / 1000 W (USA)

ROLLABLE MAT "FLEXI-ROLL"

- ORIGINAL REUTHER
- No need to turn over the mat for rolling up
- Quick and easy to use
- No roll-up core needed
- Great absorption characteristics thanks to 40 mm height
- Suitable for gymnastics, cheerleading, tumbling, acrobatics as well as schools, clubs and kindergarten
- Top layer made of comfortable needle-felt carpet in SPIETH-blue

3900304	6 x 2 m, 40 mm
3900306	12 x 2 m, 40 mm
3900307	14 x 2 m, 40 mm
3900371	17 x 2 m, 40 mm
3900303	20 x 2 m, 40 mm

ROLLABLE MAT "FLEXI-ROLL" - AREA

- 7 mats 2 x 14 m, 40 mm, SPIETH-blue
- 6 Velcro tapes each 14 m
- 2 white Velcro rolls for marking of competition area each 25 m

1790472	14 x 14 m area made of rollable mats
----------------	--------------------------------------

- 6 mats 2 x 12 m, 40 mm, SPIETH-blue
- 5 Velcro tapes each 12 m

1790471	12 x 12 m area made of rollable mats
----------------	--------------------------------------

ROLLABLE MAT "TRIFLEX"

- ORIGINAL REUTHER
- Top layer made of comfortable needle-felt carpet in SPIETH-blue
- TRIFLEX-model with multilayer special foam
- Height: 35 mm

2511225	12 x 2 m, 35 mm, with roll-up core
1884270	14 x 2 m, 35 mm, with roll-up core

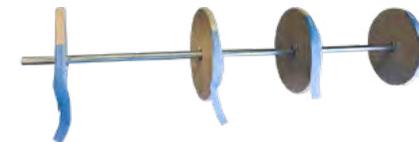

ROLLABLE MAT "TRIFLEX" - AREA

- 7 mats 2 x 14 m, 35 mm, SPIETH-blue with roll-up core
- 6 Velcro tapes each 14 m
- 2 white Velcro rolls for marking of competition area each 25 m

2511268	14 x 14 m area made of rollable mats
----------------	--------------------------------------

- 6 mats 2 x 12 m, 35 mm, SPIETH-blue with roll-up core

POMMEL HORSE

POMMEL HORSE

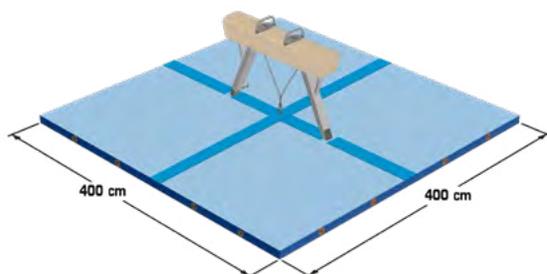

- **FIG-certified, ORIGINAL REUTHER**
- Resistant corpus with foam layer and real leather upholstery
- Very sturdy
- 2 hygroscopic Aluminium pommels
- Easy to transport by 4 built-in swivel wheels
- Tensioning cable and lock for floor anchoring are included
- Height adjustable between 95 - 125 cm
- Safety padding available as an option (art. 1566064)

1406104	dimensions corpus: ca. 160 x 35 x 28 cm
----------------	---

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565862 Mats set "Moscow" for Pommel Horse
- **or**
- 1565867 Mats set "Basic" for Pommel Horse
- 1389153 Magnesia stand "Munich"

TECHNICAL DETAILS:

- Aluminium pommel with a hygroscopic anti-slip rubber
- Provides great grip
- Less magnesia for preparation is necessary

FREESTANDING CONSTRUCTION - POMMEL HORSE

Thanks to our freestanding construction it becomes possible to anchor the Pommel Horse in places where anchoring is impossible. Therefore the Pommel Horse is anchored to a steel frame. Please get in contact with us if you are interested.

1760961	Freestanding Construction - Pommel Horse

- Suitable for competition Pommel Horse (art. 1406104)
- One Pommel Horse requires one set

1566064	per set
----------------	---------

ALUMINIUM POMMEL (COMPETITION MODEL)

- Aluminium pommel with a hygroscopic anti-slip rubber
- Provides great grip
- Less magnesias for preparation is necessary
- Suitable for Competition Pommel Horse (art. 1406104), Pommel Training Aid (art. 1403314), Floor Pommel Horse (art. 1407073)

2200525	per piece
----------------	-----------

i

MATS SETS ARE AVAILABLE ON P. 76 - 77 AND FIG SPECIFICATIONS ON P. 85
PLEASE GET IN CONTACT WITH US FOR FURTHER INFORMATION

POMMEL HORSE "JUNIOR"

- Original Reuther
- Downsized Pommel Horse (90%) for young gymnasts
- Facilitate methodical transition from Mushroom to Pommel Horse
- For young gymnasts up to 14 years
- Prevents incorrect posture and injuries
- Corpus with real leather upholstery
- Adapted size and height, grippy wooden pommels

1407068 height: 100 cm, corpus: 143 x 32 cm

FLOOR POMMEL HORSE

- Original Reuther
- Corpus of Pommel Horse with low height for training and to learn new skills
- Corpus is identical to competition Pommel Horse
- Aluminium pommels are identical to competition Pommel Horse
- Wooden base with rubber elements
- Corpus with high quality leather

1407073 height: 35 cm

POMMEL BENCH

- For methodical learning of new skills on the Pommel Horse
- Width of 45 cm (instead of 35 cm of competition Pommel Horse) to relieve shoulders
- Facilitate methodical transition from Mushroom to Pommel Horse
- Height adjustable between 50 - 65 cm in 3 steps
- Length of corpus 136 cm: ideal for training magyars
- Delivery without pommels
- Suits optionally with: pommels (art. 2203100) or pommel pads (art. 1407071)

1403304 length of corpus: 136 cm

COMPETITION POMMEL HORSE (100%)

THE PROBLEM

The dimensions of the "adult" Pommel Horse presents technical problems to young gymnasts leading them to unnatural positions for many skills. This causes incorrect posture and injuries.

POMMEL HORSE "JUNIOR" (90%)

THE SOLUTION

The dimensions of SPIETH Pommel Horse "Junior" are designed for the physique of young gymnasts. This enables them to do their exercises under almost the same conditions as the adult gymnasts. Faster progress in training and young gymnasts learn easier the correct technique with less risk of injuries.

POMMEL BOARD

- Original Reuther
- Great for learning double leg circles
- Corpus with real leather upholstery
- 2 Aluminium pommels

1407080 Corpus: 135 x 42 x 12 cm

MUSHROOM

- Mushroom, 60 cm diameter without pommel
- Upper part made of seamless shaped PUR-foam
- Ergonomic shape
- 48 cm high
- No adaption of pommel

1395014 ø 60 cm, without pommel

MUSHROOM WITH POMMEL

- Mushroom, 60 cm diameter with pommel
- Upper part made of seamless shaped PUR-foam
- Ergonomic shape
- 48 cm high (without pommel)
- With hole to fix a pommel
- Including one aluminium pommel

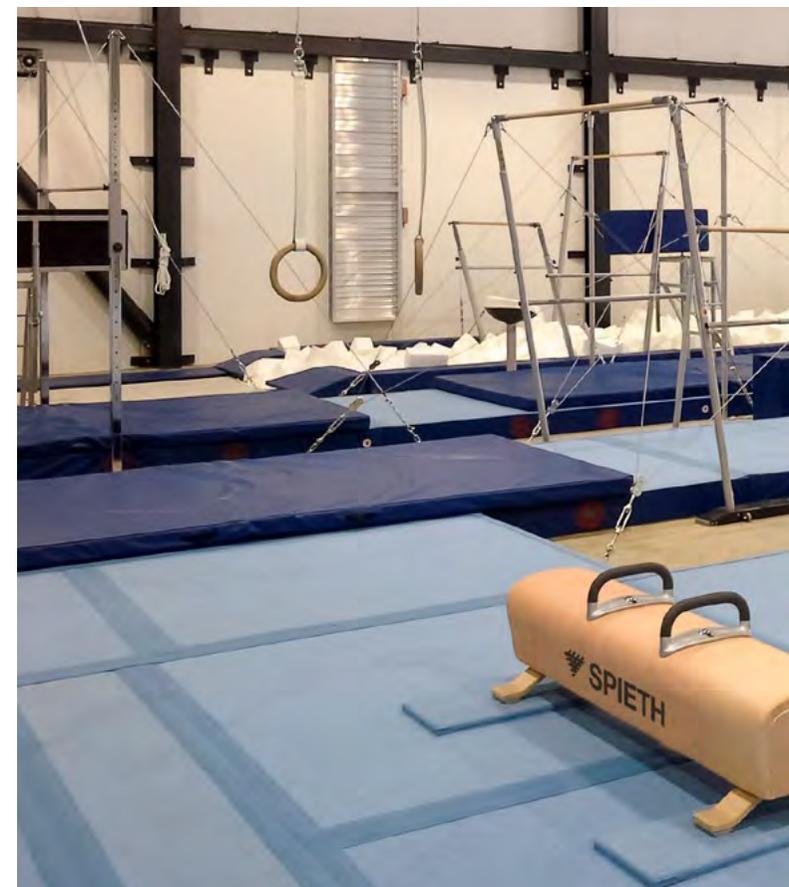

1395018 ø 60 cm, with pommel

COMPETITION MUSHROOM

- Mushroom, 100 cm without pommel
- Stable metal base with 100 cm diameter
- Upper part made of seamless shaped PUR-foam
- 48 cm high

1395024 ø 100 cm, without pommel

POMMEL TRAINING AID

- Methodical apparatus for Pommel Horse training
- Corpus with real leather upholstery
- 2 detachable aluminium pommels
- Wide base with rubber coating provides great stability

1395024 height 48 cm (without pommels)

THOMAS FLAIR AID

- Training aid for learning Thomas flair circles
- With pulleys and swivel
- Unhindered movement in all directions possible
- Soft padding of loop for feet
- Width adjustable in 3 steps (47 - 65 cm, small - medium - big)
- Scope of delivery without ceiling fixation

1395024	width adjustable in 3 steps (47 - 65 cm)
----------------	--

POMMEL PAD

- Practice pads to use with Pommel Horse or pommelbench
- Upholstered foam pads with nylon cover
- Fixation with fastener
- Protects the wrists at the circle edge training

1407071	per piece
----------------	-----------

POMMEL (WOOD)

- Pommel made of wood, suitable for practice
- Fits on Pommel Horse "Junior" (art. 1407068)

2103145	per piece
----------------	-----------

POMMEL (ALUMINIUM)

- Pommel made of aluminium for training purposes
- Suitable for Pommel Bench (art. 1403304), Mushroom (art. 1395018) and Pommel Board (art. 1407080)

2203100	per piece
----------------	-----------

DOUBLE LEG CIRCLES AID SPECIAL

- Rotating bucket version with frame and handle
- Incl. rope and rotating vortex
- For hanging e.g. on multi-swing or ceiling device
- Scope of delivery without ceiling fixation

1403205	Double Leg Circles Aid Special
----------------	--------------------------------

STILL RINGS

P. 50 - 55

RING FRAME "BERLIN"

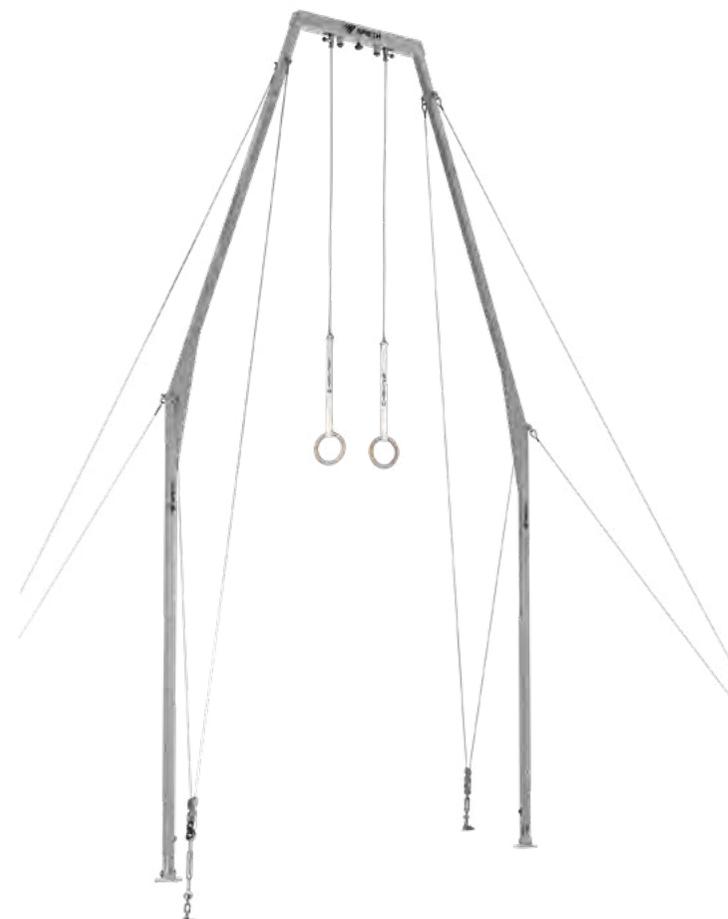

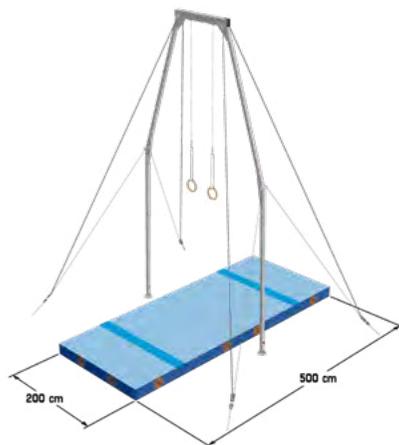

- **FIG-certified, ORIGINAL REUTHER**
- Competition Still Rings with tensioning
- Unique suspension system with adjustable built-in shock-absorption modul in the traverse to reduce impact forces
- Double tensioning with slide adjuster
- Individual fine adjustment of height at each ring
- Chrome leather straps with sewed in wooden rings
- Ring height adjustable: in 2,5 and 5 cm increments between 275 - 305 cm (275 - 280 cm per 5 cm, 280 - 290 cm per 2,5 cm, 295 - 305 cm per 5 cm)
- Overall height: 595 - 625 cm

1384034 overall height: 595 - 625 cm

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565832: Mats set "Moscow" for Still Rings
- **or**
- 1565837: Mats set "Basic" for Still Rings
- 1760308: Hook for rings
- 1540510: Landing mat "Happy Landing" 200x200x10 cm
- 1540226: Trainer support 100x75x75 cm
- 1389153: Magnesia stand "Munich"

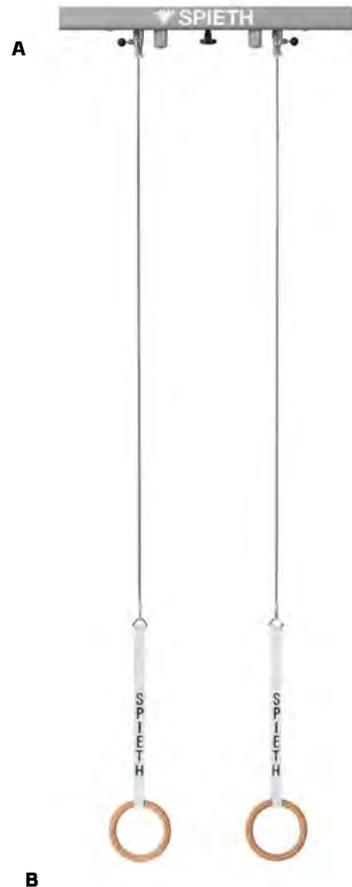

STILL RINGS

TECHNICAL DETAILS:

The adjustable suspensions with built-in shock absorption module allows to regulate individually the degree of absorption.

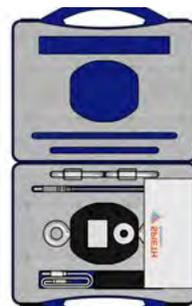

QUALITY CHARACTERISTIC

The adjustable suspensions with built-in shock absorption modul allows to regulate individually the degree of absorption.

RINGS FOR RING FRAME "BERLIN"

- Chrome leather straps with sewed in wooden rings and steel cables
- Suitable for competition ring frame "Berlin" (art. 1384034 or ceiling ring system "Berlin" art. 1384060)
- Standard length: 300 cm

2511263 | **B** per pair

NEW

TCS-TENSION CONTROL SYSTEM

- FIG-approved
- For Uneven Bars, Horizontal Bar, Rings (frame)
- Prevention of too low or too high tensioning thanks to the tensioning measuring device with easy to read digital display
- When tensioning becomes too low or too high, it is shown by means of an flashing light signal
- Per tensioned gymnastic apparatus is one tensioning control system necessary

1760950 | TCS - Tension Control System

CEILING RINGS

- Basic ring set to directly connect to the ceiling
- Torsion-free cable suspension
- Directly attachable to the ceiling
- Not compatible with ring frame or ceiling ring system "Berlin"
- Standard length: 270 cm
- Individual lengths available on request

1289000 | standard length: 270 cm

i

IMPORTANT: TO RECEIVE THE CORRECT LENGTH OF CABLES AS WELL AS THE CORRECT MOUNTING MATERIAL, THE CEILING HEIGHT AND CONSTRUCTION NEED TO BE PROVIDED.

CEILING RING SYSTEM "BERLIN"

- Traverse of competition rings to be mounted on ceiling construction
- Same characteristics as competition ring frame "Berlin"
- No tensioning necessary
- Suspension with built in shock absorption that helps to prevent injuries on joints
- Ideal for training centers and over pit systems
- Delivery without ceiling fixation material
- Rings "Berlin" (art. 2511263) are not included

1395024 | **A** to be mounted on ceiling construction

FREESTANDING CONSTRUCTION - STILL RINGS

Thanks to our freestanding construction it becomes possible to anchor gymnastic apparatuses in places where anchoring is impossible. The gymnastic apparatus is anchored on a steel frame with four arms and weights on each end.

This freestanding construction is suitable for the apparatuses Uneven Bars, Still Rings, and Horizontal Bar; only different amounts of weights are necessary.

For one freestanding construction a base area of around 7,5x6 m is necessary.

Please request the required individual amount of weights separately.

2205070	Freestanding Construction
----------------	---------------------------

PLEASE GET IN CONTACT FOR FURTHER INFORMATION ON OUR FREESTANDING CONSTRUCTION FOR STILL RINGS.

HOOK FOR RINGS

Aluminium rod with clips for fixation on the wall or ring frame.

1760308	length: 190 cm
----------------	----------------

TRAINER SUPPORT

- Podest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and furthermore for gymnasts to prepare the apparatus

1540226	100 x 75 x 75 cm
----------------	------------------

MORE METHODICAL BLOCKS AND TRAINER SUPPORTS ARE AVAILABLE ON [P.72](#).

TRAINER PLATFORM "CLUB" RINGS

- Height adjustable trainer platform for Uneven Bars and Horizontal Bar
- Folds up automatically by means of a gas spring
- Height adjustable in 10 cm increments between 137-197 cm
- Size of platform: 135x45 cm
- The trainer platform is not attached to the apparatus and thus does not influence its characteristics
- Ideal for installed training centers and at pit systems
- Floor anchoring is necessary (delivery without mounting material)

1490372	4 pillars
----------------	-----------

POWER AND COORDINATION TRAINER

- Training aid to develop strength and coordination
- For use with Parallel Bars
- Stabilizes the spine
- Simulates basic core positions
- Strengthen shoulder and core muscles
- Wide belt with padding

1403224 | Power and Coordination Trainer

POWER BENCH

- Freestanding bench with rings and sled
- Strength training for chest, back and shoulder muscles
- For training cross and inverted cross position
- Upholstered easy gliding sled with ball bearings
- Height adjustable
- Maximum load of the sled: 150 kg

1403248 | Power Bench

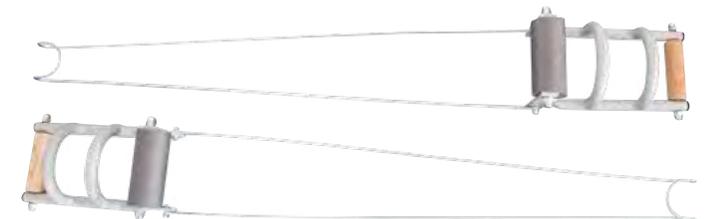

FIFTY-FIFTY EQUIPMENT

- Reducing forces by means of a pulley
- Significant reduction of forces while learning new skills
- Suitable with SPIETH belts (see page 73)
- Ideal methodical device, facilitates assistance for coach
- Belt and ceiling fixation are not included

1403250 | Fifty-Fifty Equipment

ADDITIONAL INFORMATION

This training aid helps developing strength and coordination, especially for Still Rings. The basic positions, the so-called "C", "I" and "S" positions, can be simulated and exercised to perfection. Changes in position automatically lead to changes in hip or arm/core angle. Strengthening of especially shoulder and core muscles and thus stabilizes the spine.

CROSS POSITION AID "SPECIAL"

- To attach to rings
- Facilitates learning of cross positions
- Wooden handles and padding for forearms

1875181 | per pair

i SOMERSAULT AND TWISTING BELTS ARE AVAILABLE ON P. 73.

SET OF RINGS

- To hang into wall bar supports or Parallel Bars (art. 1403234)
- Straps with sewed in wooden rings
- Including buckle to adjust the length

1384175 | per pair

WALL BARS SUPPORT

- To clamp on wall bars
- Suitable for standard wall bars
- For strength training
- Can be used in combination with set of rings (art. 1384175)
- Foldable for easy storage
- Ideal for methodical training
- For maximum 80 kg body weight

1403234 | Wall Bars Support

PARALLEL BARS

P. 56 - 63

PARALLEL BARS "MELBOURNE"

- **FIG-certified, ORIGINAL REUTHER**
- Innovative Dynamoflex® Fiberglass rails combine optimal vertical dynamics for gymnastics elements between the rails with great horizontal stability for sideward elements on one rail
- The unique pre-tension of rails offers gymnasts great dynamics for flight elements and simultaneously reduces impact forces of landings on the arms
- Stepless width adjustment with nonius (precision indicator on each upright which guarantees always the same width setting) for quick and individual adjustment of the Parallel Bars
- The height adjustment is provided with additional height adjustment locking
- Stable steel frame
- Transport trolley (art. 1404016) is optional available

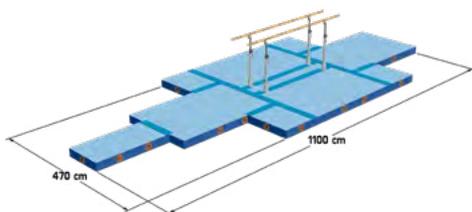

1403110	with Dynamoflex® Fiberglass rails
----------------	-----------------------------------

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565872 Mats set "Moscow" for Parallel Bars
- **or**
- 1565873 Mats set "Basic" for Parallel Bars
- 1411704 Springboard "Moscow 5"
- 1389153 Magnesia stand "Munich"

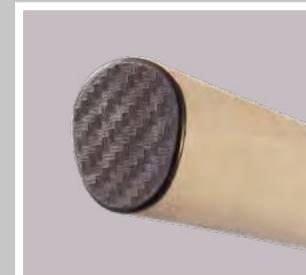

Necessary only for warm-up and training:

- 1540510 Landing mat "Happy Landing" 200x200x10 cm

TECHNICAL DETAILS:

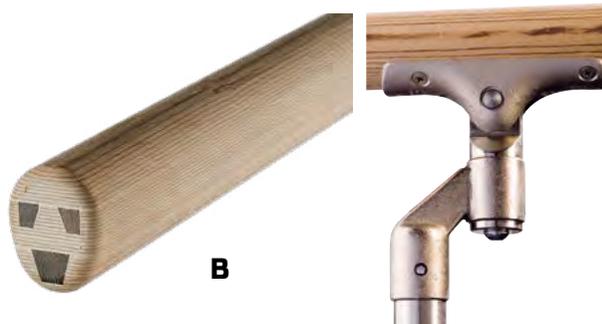

- Height adjustable between 160 - 210 cm in 5 cm increments
- Competition height according FIG Norm: Position 9
- Stepless width adjustment from 41 - 71 cm

NEW

D Wood rail, 350 cm	for Parallel Bars "Senior", per piece	3129043

i

WE RECOMMEND TO EXCHANGE
PARALLEL BARS RAILS PER PAIR

PARALLEL BARS "SENIOR"

- Parallel Bars for training
- With built-in transport system and closed base frame
- Stepless width adjustment between 40 - 60 cm
- Length of rail: 350 cm with pre-tensioning

1402165	Height adjustable between 120 - 180 cm
----------------	--

PARALLEL BARS "JUNIOR"

- Parallel Bars for schools and clubs
- With built-in transport system and open base frame
- Width adjustment adapted to size of children (30 - 50 cm)
- Length of rail: 280 cm with pre-tensioning

1401160	Height adjustable between 105 - 165 cm
----------------	--

PARALLEL BARS "MELBOURNE" FOR LANDING PITS

- Competition Parallel Bars "Melbourne" adapted for use at landing pits
- Special stable steel frame for use on the edge of the pit

1760785	Parallel Bars "Melbourne" for Pits
----------------	------------------------------------

CENTER MAT

- To cover base frame of Parallel Bars

For competition models ("Melbourne", "Champion Stuttgart")

A	for "Melbourne" (art. 1403110)	300 x 70 x 20 cm	2240585
B	for "Champion Stuttgart" (art. 1403104)	300 x 70 x 20 cm	2240580

----------------	----------------

METHODICAL BLOCK

Foam block with PVC-cover. Ideally suitable for training.

1540200	90 x 75 x 60 cm
1540205	120 x 120 x 80 cm
1540220	200 x 100 x 50 cm
1540221	200 x 100 100 cm

TRAINER SUPPORT

- Pedest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and furthermore for gymnasts to prepare the apparatus

1540225	50 x 50 x 50 cm according to FIG specifications
1540226	100 x 75 x 75 cm according to FIG specifications
1540188	75 x 45 x 60 cm

i PLEASE FIND LANDING MATS SETS AT P. 76 - 77 AND FIG-SPECIFICATIONS AT P. 85. PLEASE GET IN CONTACT WITH US FOR FURTHER INFORMATION.

SAFETY CUSHION

- U-shaped safety padding for Parallel Bars, Uneven Bars and Horizontal Bar
- With a handle on the short side for quick and easy slide in and out
- Cover made of PVC
- Easy to attach with Velcro
- Length 140 cm

1760301	length: 140 cm
----------------	----------------

PARALLEL BARS TRAINING PAD

- Thin padding that protects the athlete while practicing
- Blue PVC-cover
- Fixation with Velcro
- Length 140 cm (divisible in 2 parts á 70 cm - connectable via velcro)

1760306	length: 140 cm
----------------	----------------

PARALLEL BARS

POWER AND COORDINATION TRAINER

- Training aid to develop strength and coordination
- For use with Parallel Bars
- Stabilizes the spine
- Simulates basic core positions
- Strengthen shoulder and core muscles
- Wide belt with padding

1403224	Power and Coordination Trainer
----------------	--------------------------------

ADDITIONAL INFORMATION

This training aid helps developing strength and coordination, especially for Still Rings. The basic positions, the so-called "C", "I" and "S" positions, can be simulated and exercised to perfection. Changes in position automatically lead to changes in hip or arm/core angle. Strengthening of especially shoulder and core muscles and thus stabilizes the spine.

A

TRAINING BARS

- Original Reuther
- Foldable and space saving
- Stepless width adjustment
- For methodical handstand training and gymnastics in schools
- Stable despite low weight of apparatuses

A 1403404	Low methodical bars, height 40 cm, length of rails 170 cm
------------------	---

B 1403408	High methodical bars, height 105 cm, length of rails 250 cm
------------------	---

B

FOAM BARS

- The foam bars consists of 4 detachable modules, it is great for learning new elements on the Parallel Bars
- 2 large modules 160 x 58 x 100 cm
- 2 small modules 160 x 58 x 12 cm
- 1 stabilization unit 180 x 160 cm
- 1 safety mat 200 x 50 x 3 cm
- The maximum distance between the posts is 64 cm

HORIZONTAL BAR

P. 64 - 69

HORIZONTAL BAR "STUTTGART"

- **FIG-certified, ORIGINAL REUTHER**
- Break-proof rail made of high quality special stainless steel
- Great pre-tensioning on the bar
- Double tensioning provides great elasticity
- Reduces vibrations of rail by half
- Padding (art. 1566034) optionally available

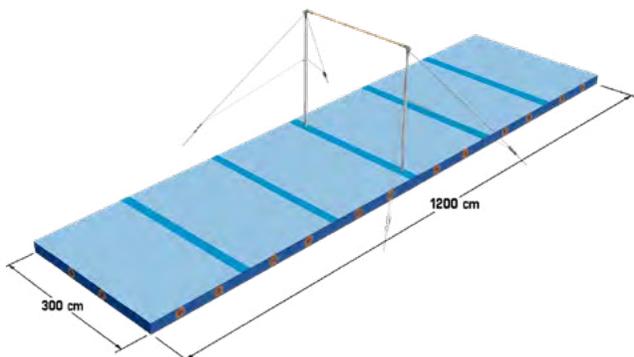

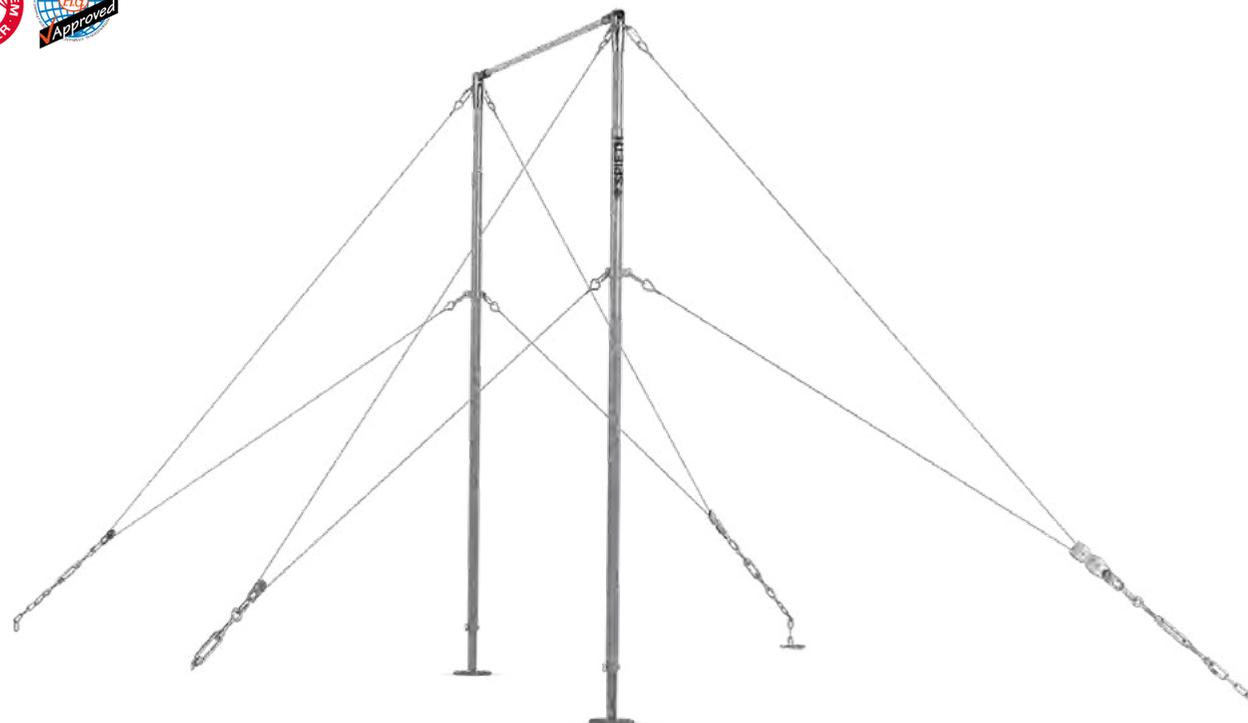

1384214	height adjustable between 265 - 310 cm
----------------	--

REQUIRED ACCESSORIES ACCORDING TO FIG SPECIFICATIONS

- 1565822 Mats set of landing mats "Moscow" for Horizontal Bar
- **or**
- 1565827 Mats set of landing mats "Basic" for Horizontal Bar
- 1540226 Trainer support 100x75x75 cm
- 1540505 Landing mat "Happy Landing" (2x) 400x200x10 cm
- 1389153 Magnesia stand "Munich"

Necessary only for warm-up and training:

- 1540510 Landing mat "Happy Landing" 200x200x10 cm

TECHNICAL DETAILS:

The break-proof Horizontal Bar rail is a worldwide unique construction of SPIETH Gymnastics that features a built-in steel cable allowing the Horizontal Bar to stay in consistent tension, even if the Horizontal Bar itself breaks down. Through experience this very important feature became a safety criterion to avoid serious accidents.

HORIZONTAL BAR "UNIVERSAL"

- Original Reuther
- Stainless steel rail
- With single tensioning
- Height adjustable between 160 - 280 cm in 5 cm increments

1384215

height adjustable between 160 - 280 cm in 5 cm increments

HORIZONTAL BAR "CLUB"

- Especially developed for training purposes
- The quick-lock system and fast tensioning devices enable an efficient height adjustment and a fast exchange of rails
- Height adjustable from 60 to 300 cm (60 to 220 cm per 10 cm increments, 220 to 300 cm per 5 cm increments)
- Compatible with Uneven Bars rail "Club" (art. 2202205 or art. 2204825)
- More stability thanks to new base

1384094

height adjustable between 60 - 300 cm

i

FOR COMPETITION LANDING MATS SEE PAGE 76 - 77. FOR FIG-NORMS SEE PAGE 85. FOR MORE INFORMATION PLEASE CONTACT US.

METHODICAL HORIZONTAL BAR

- Horizontal Bar for training purposes with quick-lock system and without tensioning; fixation on floor is necessary
- For permanent installation in training centers
- Height adjustable from 45 to 200 cm
- Great for methodical training with children
- Also suitable with Uneven Bars rail "Club" (art. 2202205 or 2204025)
- Width: 244 cm
- Mounting material is not included

1384224	height adjustable between 45 - 200 cm
----------------	---------------------------------------

HORIZONTAL BAR SUPPORTS

- Two posts with wide support area for Horizontal Bar rail "Club" or Uneven Bars rail "Club", 40 cm high
- With quick-lock system for quick exchange of rails
- Sturdy and wide stand and anti-slip rubber bottom
- Suitable for methodical training
- Delivery without rail

1384080	40 cm high
suitable with	
4140705	Steel rail "Club"
2202205	Fiberglass rail "Carboflex®" "Club"
2204825	Fiberglass rail "Fiberflex" "Club"

TCS-TENSION CONTROL SYSTEM

- FIG-approved
- For Uneven Bars, Horizontal Bar, Rings (frame)
- Prevention of too low or too high tensioning thanks to the tensioning measuring device with easy to read digital display
- When tensioning becomes too low or too high, it is shown by means of a flashing light signal
- Per tensioned gymnastic apparatus is one tensioning control system necessary

1760950	TCS - Tension Control System
----------------	------------------------------

TRAINER SUPPORT

- Podest with hard foam and reinforced edges for a safe standing position
- Variable in use for coaches to stand on and furthermore for gymnasts to prepare the apparatus.

TO REDUCE THE POSSIBILITY OF RAIL BREAKAGE, WE STRONGLY RECOMMEND TO REPLACE RAILS AT LEAST EVERY 3 YEARS.

FREESTANDING CONSTRUCTION - HORIZONTAL BAR

Thanks to our freestanding construction it becomes possible to anchor gymnastic apparatuses in places where anchoring is impossible. The gymnastic apparatus is anchored on a steel frame with four arms and weights on each end.

This freestanding construction is suitable for the apparatuses Uneven Bars, Still Rings, and Horizontal Bar; only different amounts of weights are necessary.

For one freestanding construction a base area of around 7,5x6 m is necessary.

Please request the required individual amount of weights separately.

2205070	Freestanding Construction - Horizontal Bar
----------------	--

i

PLEASE GET IN CONTACT WITH US FOR FURTHER INFORMATION ABOUT FREESTANDING CONSTRUCTION.

TRAINER PLATFORM "CLUB" HORIZONTAL BAR

- Height adjustable trainer platform for Uneven Bars and Horizontal Bar
- Folds up automatically by means of a gas spring
- Height adjustable in 10 cm increments between 137 - 197 cm
- Size of platform: 140 x 50 cm
- The trainer platform is not attached to the apparatus and thus does not influence its characteristics
- Ideal for installed training centers and at pit systems
- Floor anchoring is necessary (delivery without mounting material)

1490373	4 pillars
----------------	-----------

1490370	2 pillars
----------------	-----------

TRAINER PLATFORM "SPECIAL" FOR HORIZONTAL BAR "CLUB"

- Height adjustable trainer platform for Horizontal Bar "Club"
- Folds up automatically by means of a gas spring
- Height adjustable in 10 cm increments between 137 - 197 cm
- Size of platform: 120 x 85 cm
- The trainer platform is not attached to the apparatus and thus does not influence its characteristics
- Floor anchoring is necessary (delivery without mounting material)

1490374	4 pillars
----------------	-----------

SAFETY CUSHION

- U-shaped safety padding for Horizontal Bar, Parallel Bars and Uneven Bars
- With a handle on the short side for quick and easy slide in and out
- Cover made of PVC
- Easy to attach with Velcro

MATS

• P. 74 - 81

COMPETITION LANDING MATS "MOSCOW"

- **FIG-certified, ORIGINAL REUTHER**
- Developed by using various types of high-tech foam with different degrees of hardness and additional side-stabilization
- Top layer made of hard-wearing needle felt. Cover made of reinforced PVC with an anti-slip base and additional handy grips with dual use: ventilation and easy carrying of the mat
- To avoid joints the mats can be linked in all directions with other mats thanks to Velcro loop on top of the mat at all four sides
- All mats are 20 cm high or rather 10 cm for mats set Pommel Horse according to the current FIG-Specifications

2240502	competition landing mat 300 x 200 x 20 cm
2240512	competition landing mat 250 x 200 x 20 cm
2240522	competition landing mat 200 x 200 x 20 cm
2240812	competition landing mat 150 x 200 x 20 cm
2240532	competition landing mat 100 x 200 x 20 cm

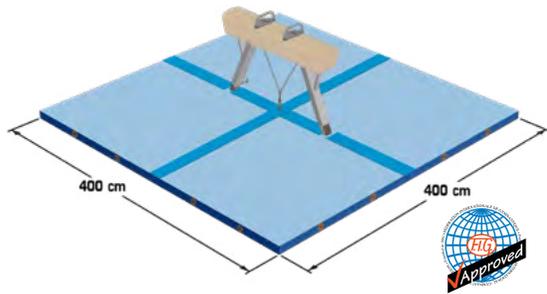

MATS

i MATS WITH INDIVIDUAL DIMENSIONS ON REQUEST.

TECHNICAL DETAILS:

Handy grips are not only handy. The grips have a tear resistance 6 times higher than regular mat grips. The air regulation capabilities of the grips come from the combination of the air tunnels in the foam and the netting of the handy grips. The special netting allows air to flow out freely but at the same time prevents dust from coming inside the foam, thus increasing the life time of the mat.

MATS SET POMMEL HORSE

LANDING MAT "HAPPY LANDING" ANTI-VIRUS

- Completely covered with white Anti-Virus PVC
- Abilities are similar to the normal "Happy Landing" 400 x 200 x 10 cm

1540525	400 x 200 x 10 cm
----------------	-------------------

LANDING MAT "HAPPY LANDING"

- Soft landing mat with PVC-cover and zipper
- Available for training use with 5 cm height and according to FIG-Specifications in 10 cm height
- Mandatory landing mat with dimensions 400 x 200 x 10 cm at FIG-competitions at Uneven Bars, Balance Beam and Horizontal Bar
- Recommended to use for double-mini trampoline and tumbling

1540505	400 x 200 x 10 cm
----------------	-------------------

1540510	200 x 200 x 10 cm
----------------	-------------------

1540515	200 x 200 x 5 cm
----------------	------------------

LANDING MAT "HAPPY LANDING"

- Same characteristics as Landing Mat "Happy Landing" in 2 m and 4 m length
- With marking of landing zone at Vault

1540500	600 x 200 x 10 cm
----------------	-------------------

LANDING MAT "HAPPY LANDING" - WITH CANVAS COVER

- Mat with PVC-cover and comfortable elastic canvas cover on top
- Use for training purposes only

1540511	200 x 200 x 10 cm
----------------	-------------------

SAFETY SPOTTER MAT "HAPPY LANDING"

- Soft filling and comfortable soft cover made of comfortable fabric
- Particularly suitable for spotting flight elements on Uneven Bars and Horizontal Bar
- Two handles on the short side of the mats allow a fast slide in and out during flight elements

1540509	200 x 100 x 12 cm
----------------	-------------------

TRAMPOLINE SPOTTER MAT "SECURA"

- Safety spotting mat for trampoline
- Mandatory for competitions in trampolining (9 kg)
- For coaches to support the athlete
- PVC-cover with an elastic canvas on top
- 4 carrying handles

1495290	Secura (9 kg) 175 x 125 x 14 cm
----------------	------------------------------------

1740122	Dimensions 10 x 2 x 0,3 m

TRANSPORT TROLLEY

Sturdy transport trolley for "Airtrack Maximum"

- 4 castors
- Easy to handle

1590566	4 castors
----------------	-----------

TECHNICAL DETAILS:

- Inflated within a short time, with adjustable pressure
- Reduced impacts on joints, so athletes can practice more often
- Suitable for beginners and top gymnasts
- With lines for a better orientation and as a help in methodical training (except Aircylinder)
- Bottom side with anti-slip material (except Airtracks, Airfloor long + Aircylinder)
- At short sides connectable with velcro (except Aircylinder and Airbeam, for Airspot only at center line)
- Inclusive transport/ storage bag and repair set
- Blower must be ordered separately (not for Airtracks)

AIRBOARD

- Practical alternative to springboards
- Connectable to springboard via connecting straps (inclusive)

1740126 dimensions 120 x 60 x 10 cm

1740145 dimensions 100 x 40 x 10 cm

1740146 dimensions 100 x 40 x 20 cm

1740147 dimensions 100 x 60 x 20 cm

AIRINCLINE

- Comfortable training for jumps, can be used as springboard e.g. for Uneven Bars, Parallel Bars or Vaulting Table
- For easy learning of rolling forwards/ backwards

1740134 dimensions 120 x 90 x 30 - 10 cm

1740135 dimensions 180 x 120 x 30 - 20 cm

1740136 dimensions 180 x 120 x 65 - 20 cm

AIRFLOOR SHORT

- Training aid for e.g. exercises on Balance Beam or floor
- Including connecting straps

1740129 dimensions 200 x 100 x 10 cm

1740130 dimensions 200 x 100 x 20 cm

AIRSQUARE

Comfortable training for jumps

1740127 dimensions 100 x 100 x 10 cm

1740128 dimensions 100 x 100 x 20 cm

AIRBEAM

Center line is 10 cm wide (corresponding with width of a competition Balance Beam)

1740139 dimensions 300 x 40 x 10 cm

1740140 dimensions 500 x 40 x 10 cm

AIRSPOT

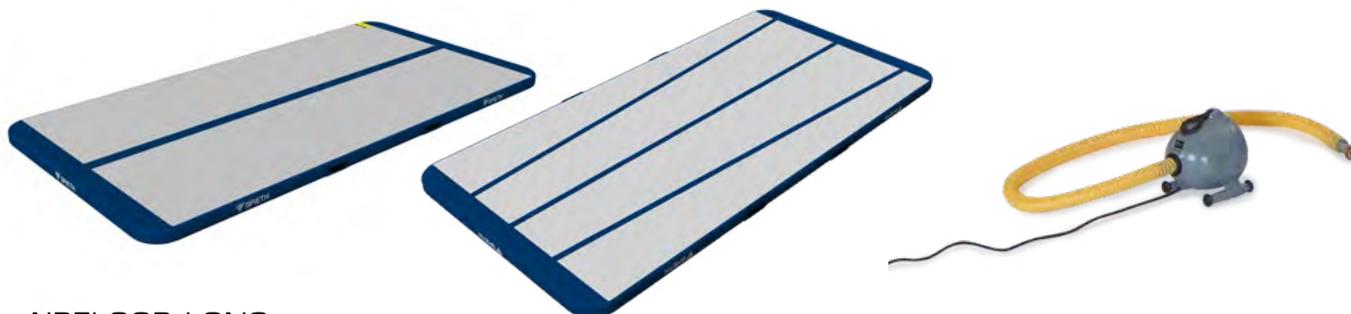

For easy learning for jumps

1740137 dimensions \varnothing 100 x 10 cm

1740138 dimensions \varnothing 150 x 10 cm

**FOR AIR ASSORTMENT:
BLOWER MUST BE ORDERED SEPARATELY
(NOT FOR AIRTRACKS)**

AIRFLOOR LONG

Training aid for e.g. exercises on Balance Beam or floor with blue lines for better orientation: one side with 3 lines (like landing mat of Vault) and other side with 1 line

1740131	dimensions 400 x 200 x 10 cm
1740132	dimensions 400 x 200 x 20 cm
1740133	dimensions 600 x 200 x 10 cm
1740142*	dimensions 300 x 100 x 10 cm
1740143*	dimensions 400 x 100 x 10 cm
1740144*	dimensions 500 x 100 x 10 cm

*without 3 lines for Vault landing area at second side

AIRCYLINDER

For easy learning of several acrobatic skills

1740141	dimensions \varnothing 80 x 120 cm
----------------	--------------------------------------

MINI-BLOWER AIR ASSORTMENT

- Compact blower for Air Assortment
- Rapid inflation and deflation
- Easy to transport
- Fitted with a thermal cut-out

1740250	230 V / 1000 W (EU)
1740251	120 V / 1000 W (USA)

MANOMETER

- Digital pressure device and adapter for airtrack and air products
- Automatic pressure regulation
- Battery not included

1740255	Manometer
----------------	-----------

CONNECTION KIT AIR PRODUCTS

- To connect 2 air products
- Velcro stripes, covered with PVC
- 2 stripes of 85x23 cm and 1 stripe of 180x23 cm
- 2 connecting straps (length 200cm) for e.g. fixing the Airboard to a springboard or Vaulting Table

1740590	Connection Kit Air Products
----------------	-----------------------------

REPAIR SET

To repair small damages to airtracks or air products (airmats).

1740280	Repair Set
----------------	------------

TRAMPOLINE

EUROTRAMP

P. 90 - 93

COMPETITION TRAMPOLINE "ULTIMATE"

FIG-certified

- Trampoline "Ultimate" 4 x 4
- Frame made of high quality steel, 530 x 305 x 115 cm
- Jumping bed 426 x 213 cm made of 4x4 mm nylon straps
- 118 "Ultimate" steel springs for optimal dynamics and 8 reinforced corner springs
- 32 mm thick frame pads (foldable), with lifting roller stands

1495023 | frame dimensions 530 x 305 x 115 cm

SAFETY PLATFORM "COMPETITION UNIVERSAL"

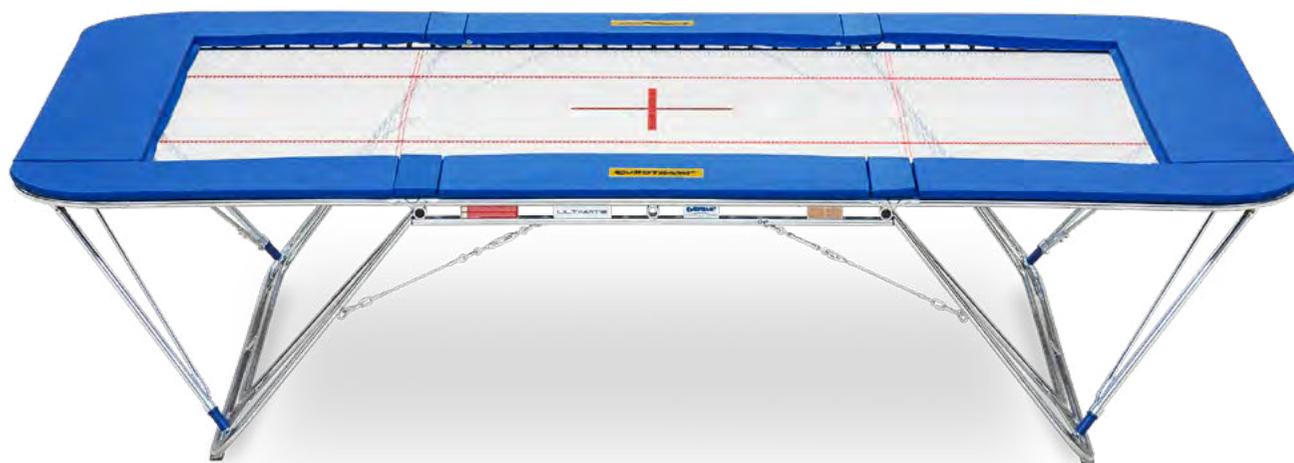

- Supplementary frames designed to fit at the short ends of a full size trampoline "Ultimate", offering additional safety and confidence
- Steel frame construction with elastic stringing
- Safety mats to be ordered separately
- For competition trampoline "Ultimate" or "Grand Master"

1495223 | per pair

SAFETY MAT "COMPETITION"

- Safety mats set "Ultimate". Consisting of 2 mats of 300 x 200 x 20 cm
- Each with a detachable incline of 300 x 40 x 20 cm

1495224 | 2 mats of 300 x 200 x 20 cm

Safety Platform "Competition Universal"

Safety Mat "Competition"

TRAMPOLINE SPOTTER MAT "SECURA"

- Safety spotting mat for trampoline
- Mandatory for competitions (9 kg version)
- For coaches to support the athlete
- PVC-cover and top with an elastic canvas
- 4 carrying handles

1495090	one Set for 2 trampolines
----------------	---------------------------

LANDING AREA "DOUBLE-MINITRAMP"

- Suitable for Double-Minitramp
- With marking of landing zones 400x200 cm in yellow and 250x100 cm in red

2511367	dimensions 600 x 300 x 30 cm
----------------	------------------------------

TRAMPOLINE TRACK

- With high rebound
- For a permanent installation in training centers
- The rebound effect and cushioning are coordinated in order to ensure protection of the joints
- Recommended as methodical apparatus for acrobatic series
- Width 2 m, different lengths and variations are available on request

on request

MINITRAMPOLINE "SPIETH"

- Minitrampoline with handy castors and white orientation line
- For schools and clubs
- Height adjustable at front and rear side
- Washable protective PVC-padding
- No protruding parts
- Frame 115 x 115 cm, jumping bed 60 x 60 cm
- Dimensions adjusted to heights of benches and vaulting boxes
- Usable in horizontal setting

1411812 | frame 115 x 115 cm

TEAMGYM TRAMPOLINE "DORADO"

- High performance trampoline developed for TeamGym
- Stable rectangular tube frame 124 x 124 cm
- Extremely powerful due to free-swinging springs
- 40 steel springs
- Jumping bed 60 x 60 cm
- Black frame padding

1495050 | frame 124 x 124 cm

i FOR MORE INFORMATION PLEASE ASK FOR OUR DETAILED PRODUCT INFO SHEET.

DOUBLE-MINITRAMP "ULTIMATE"

- FIG-certified
- Competition minitramp with innovative 6 x 6 mm high-performance jumping bed
- Extremely heavy duty frame construction
- High-performance springs

1495022 | dimensions 350 x 190 x 40 cm

SPRINGBOARD "ERGOTRAMP"

- Original Reuther
- Great methodical device to ease the transition from mini trampoline to springboards
- Flat jumping bed similar to a mini trampoline
- Sturdy frame with a soft padding
- Suitable for body weight up to 60 kg
- Dimensions: 130 x 100 x 34 cm

1411070 | dimensions 130 x 100 x 34 cm

MINITRAMPOLINE OPEN-END

- Classic trampoline model
- Frame 120 x 120 cm, jumping bed 60 x 70 cm
- No metal frame at front and rear side
- Foldable and height adjustable
- Especially suitable for powerful jumps
- For competitive sports
- Castors are separately available (art. 1411015)

1411010 | frame 120 x 120 cm

GYM & FUN

P. 94 - 97

MINI-HORIZONTAL BAR

- Consisting of 2 sturdy base frames (200 cm long), 2 uprights with adaption to base frame, 2 upper adjustable tubes with wooden rail (160 cm long)

1403424

Height adjustable between 160-180 cm

MINI-PARALLEL BARS

- Consisting of 2 sturdy base frames (200 cm long), 4 uprights with adaption to base frame, 4 lower adjustable tubes with wooden rails (160 cm long)

1403434

Height adjustable between 85 - 125 cm

MINI-STILL RINGS

- Consisting of 2 sturdy base frames (200 cm long), 2 uprights with adaption to base frame, 2 extra high adjustable tubes incl. straps and rings

1403444

Height adjustable between 195 - 220 cm

MAT "GYM & FUN"

- With PVC-cover and zipper

MOVIE "FOUR-STATION-FRAME"

TRAPEZOID BOX SOFT

Large trapezoidal Vaulting Box made of foam which supports the learning process to jump over obstacles. Consisting of 4 elements. The modules are connected by means of Velcro and therefore a simple height adjustment is possible.

Each section consists of dual-density foam, in which a harder area at the top ensures stability.

- Including carrying handles
- PVC-cover; anti-slip material at the bottom side
- Possible heights: 30, 60, 90 and 120 cm
- Height of one module: 30 cm
- Different dimensions of modules (LxWxH):
 - A: 120x52,50 / 40x30 cm
 - B: 120x65 / 52,50x30 cm
 - C: 120x77,50 / 65x30 cm
 - D: 120x90 / 77,50x30 cm

1555995 Trapezoid Box Soft

VARIABLE VAULTING BOX SOFT

- Soft Vaulting Box consisting of 6 elements
- The modules are connected with Velcro therefore an individual, multiple use of the elements is easy possible
- Including carrying handles
- PVC-cover; anti-slip material at the bottom side
- Possible heights: 70, 90, 100, 110, 120 and 140 cm

Consisting of the following modules:

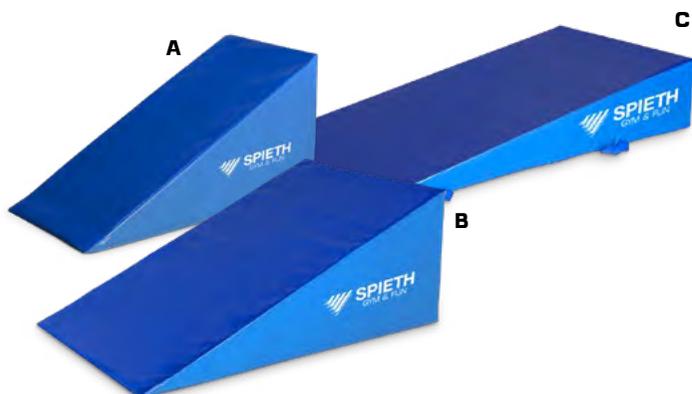

- A: Rounded module: 150x50x30 cm
- B: Intermediate module
 - 120x50x20 cm
 - 90x50x20 cm
 - 60x50x20 cm
 - 30x50x20 cm
- C: Base module: 150x80/50 x 70 cm (L x W x H)

1555996 Variable Vaulting Box Soft

2-PART VAULTING BOX SOFT

- Soft Vaulting Box consisting of 2 elements.
- Anti-slip-material on the bottom side
- Dimensions upper module: 160x80x20 cm
- Dimensions lower module: 160x80x100 cm
- With 2 carrying handles

1555998 2-Part Vaulting Box Soft

INCLINE

- Particularly suitable for gymnastics training in schools and clubs
- Developed to learn roll forward and backward without fear and with fun
- Available in 3 different sizes
- With PVC-cover
- Includes carrying handles for easy transport

A	1556003	100 x 50 x 50 cm
B	1556002	150 x 100 x 60 cm
C	1556001	200 x 100 x 35 cm

FOLDABLE INCLINE

- Unfolded usable as incline
- Folded usable as rectangle block
- With PVC-cover
- Dimensions unfolded: 200x70x48 cm
- Dimensions folded: 100x70x53 cm

1555997	Dimensions unfolded: 200x70x48 cm Dimensions folded: 100x70x53 cm
----------------	--

GYMNASTICS MAT "GYM & FUN"

- This foldable gymnastics mat is easy to set up in 50 cm sections and space-saving to store
- With its height of 4 cm it is particularly suitable for warm up and stretching exercises
- Anti-slip-material
- PVC-cover

1556000	300 x 200 x 4 cm
----------------	------------------

MULTI PURPOSE MAT

- Ideal for use in sports in p.e. lessons and clubs
- The mat is suitable for practicing landings and as safety mat during training at balance beam and bars
- 4 carrying straps for easy transport
- Made of polyurethane foam
- PVC-cover with fire protection class M2
- Equipped with ventilation openings at the sides and a zipper
- Anti-slip at bottom side

1556005	300 x 200 x 20 cm
----------------	-------------------

LIGHT GYMNASTICS MAT "GYM & FUN"

- Ideal for use in schools and club
- It can be used individually for warm-up exercises and stretching
- Thanks to the connection straps it is connectable with further mats
- Anti-slip material at the bottom
- Reinforced corners
- Connecting straps
- PVC-cover

1555999	200 x 100 x 6 cm
----------------	------------------

FOLDABLE MULTI PURPOSE MAT

- This mat can either be positioned folded underneath gymnastics apparatus or unfolded as landing mat
- 8 carrying handles
- Dimensions folded: 200 x 200 x 40 cm
- Made of polyurethane foam and PVC-cover with fire protection class M2
- Equipped with ventilation openings at the sides and a zipper
- Anti-slip at bottom side

Simone Biles 

SIMONE BILES
SIGNATURE COLLECTION

P. 98 - 101

SIMONE BILES

BEAM PACKAGE

The Beam package is the handy combo package for home use. It is great for basic training at beam. The package includes the following Simone Biles Signature Products:

- Practice beam "Home" (ca. 244x10 cm, height 20 cm)
- Foldable panel mat small (ca. 183x122x3,5 cm)
- Multi functional mat (ca. 100x140x1,9 cm)

1403808	Beam Package
----------------	--------------

PRACTICE BEAM - "HOME"

- The beam is consisting of plywood and foam.
- The cover is made of high-quality synthetic suede, which allows good grip
- The feet are made of powder-coated steel with rubber end caps to protect the ground

1403803 | Dimensions: 244x10 cm, height: ca. 20 cm

PRACTICE BEAM - "HOME" HEIGHT ADJUSTABLE

- The Simone Biles balance beam "Home" is height adjustable and allows a slow adaptation to the high beam
- The beam is high enough so that mats can easily be placed underneath
- Height adjustable 30 cm - 45 cm

1403804 | Dimensions: 244x10 cm

FOLDABLE PANEL MAT SMALL

- The foldable mat is ideally suitable for sports, yoga and stretching exercises at home
- Velcro strips at each end allow the connection of additional mats

1403805	183 x 122 x 3,5 cm
----------------	--------------------

MULTI FUNCTIONAL MAT

- The Multifunctional mat is a universal soft safety mat for gymnastics with a high level of shock absorption
- Especially suitable on balance beam and uneven bars

1403807	100 x 140 x 1,9 cm
----------------	--------------------

PORTABLE PIROUETTE BAR

- The portable pirouette bar is great for practicing turns and handstands and to get prepared for the uneven bars

1403802	111 x 24,5 cm
----------------	---------------

RHYTHMIC GYMNASTICS

P. 102 - 103

i FOR BETTER PRESENTATION TO SPECTATORS AND FOR TV BROADCASTING WE DO RECOMMEND TO USE THE RG FLOOR OF 16X16 M DURING COMPETITION.

RG-COMPETITION FLOOR "BEIJING"

- FIG-certified, Original Reuther
- Official RG competition floor
- Shock absorbing substructure (13,64 x 13,64 m), consisting of:
 - 121 panels, each 124 x 124 cm, covered with compensation panels with additional fiberglass mesh on top
 - The panels are connected by means of Velcro tape
 - Special foam elements provide high shock absorption
- Comfortable, high quality anti-static super-velours carpet with great shearing strength ensures optimal training and competition conditions
- Including red tape to mark the competition area of 13 x 13 m and double-sided glue tape to fix the RG carpet
- Total height 60 mm
- Carpets in dimensions of 14 x 14 m or 16 x 16 m as alternative
- Colour: savannah-beige

1790580	14 x 14 m
1790290	16 x 16 m

RG-CARPET "BEIJING"

- Comfortable, high quality anti-static super-velours carpet with great shearing strength (without substructure)
- Floor height: 7 mm
- Including red tape to mark the competition area

1790581	RG carpet 14 x 14 m*
1790286	RG carpet 16 x 16 m**

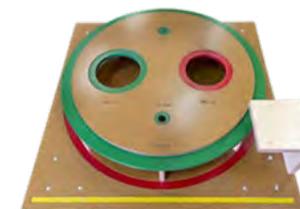

* 14 x 14 m consisting of 3 mats 14 x 4 m, 1 mat 14 x 2 m
 ** 16 x 16 m consisting of 4 mats 16 x 4 m

TRANSPORT TROLLEY FOR RG-CARPET

- With two transport trolleys one carpet roll can be moved.
- Preformed wooden surface
- Sturdy castors

2511232	per pair
----------------	----------

RG-MEASURING TABLE

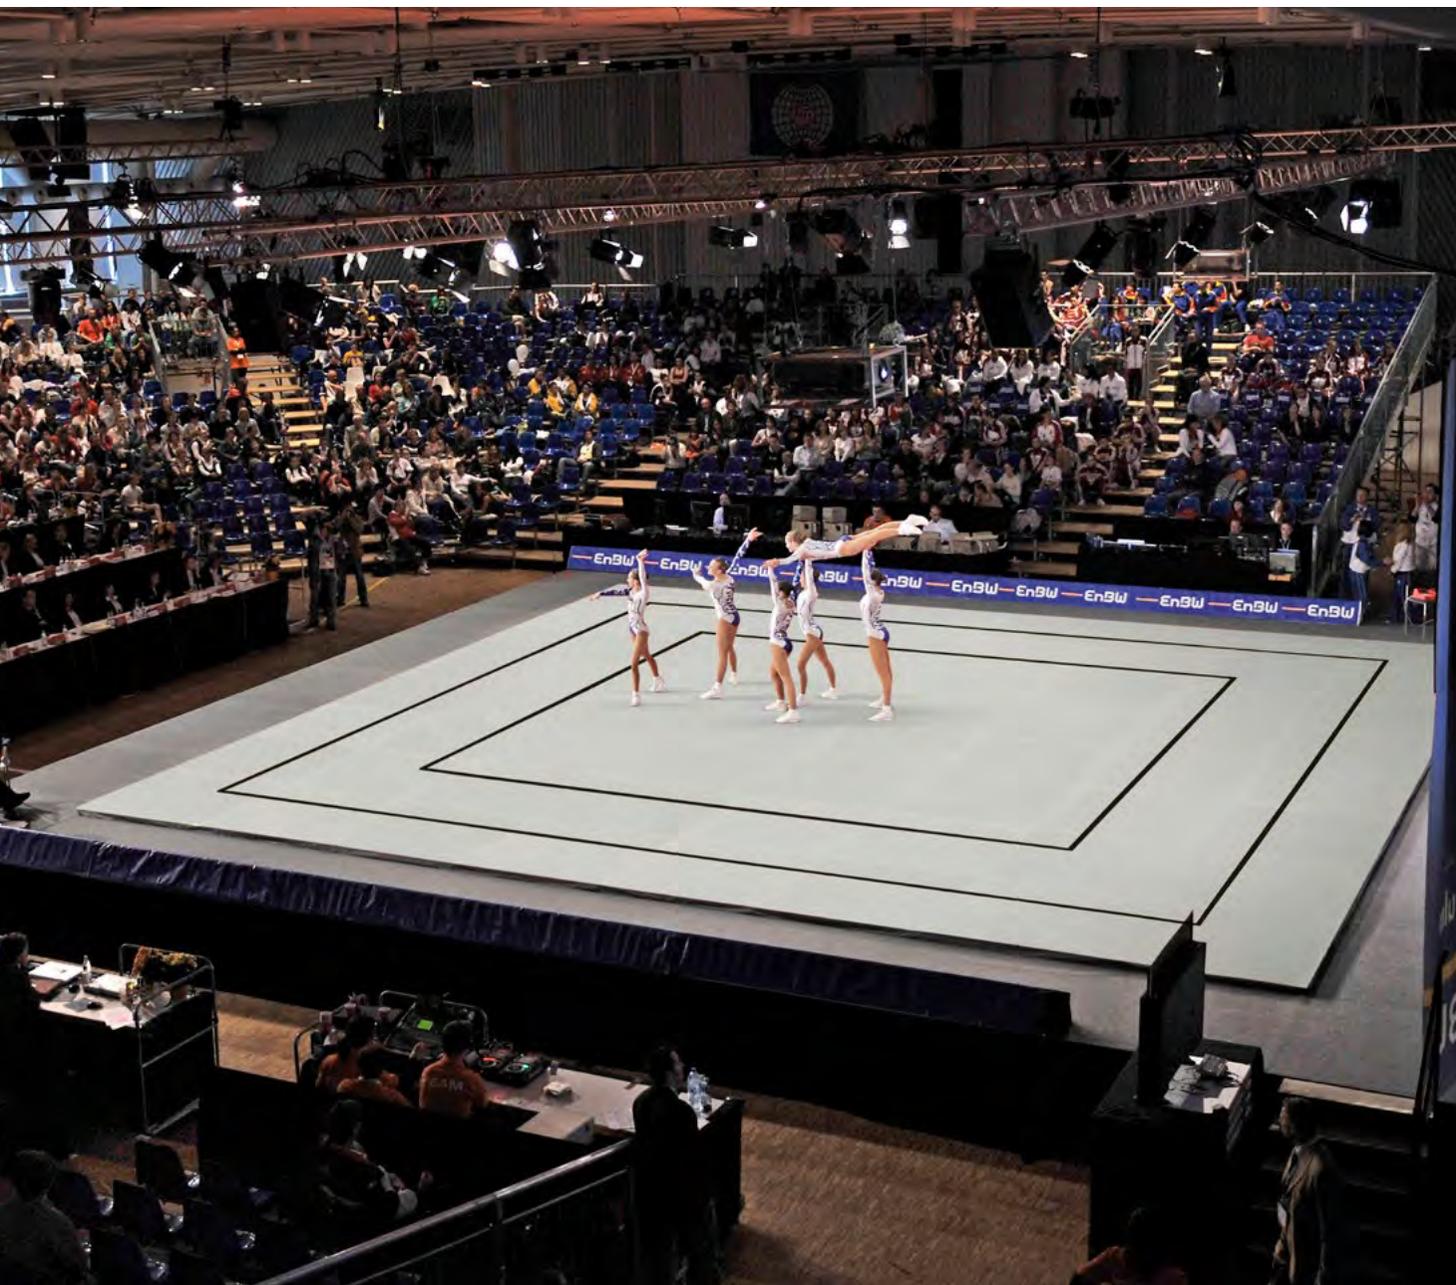

- To control all RG-apparatuses according to FIG-Specifications before a competition
- Made of wood
- With scale
- Required in official competitions
- For all RG-apparatuses

1534100	dimensions 110 x 110 x 58 cm
----------------	------------------------------

AEROBIC

P. 104 - 105

AEROBIC FLOOR "BAKU"

Official competition floor for Aerobic

- **FIG-certified, ORIGINAL REUTHER**
- The SPIETH aerobic floor "Baku" is an advanced development of the previous aerobic floor "Ulm" and meets the highest requirements for competition and training
- The active elasticity and shock-absorption are coordinated in order to reduce impact forces and to protect joints
- The basic panels are connected by means of flexible plastic slats, ensuring an easy and quick installation
- The Aerobic floor consists of multi-layer high pressure glued wooden panels with a top layer developed especially for Aerobic
- Consisting of 50 elements each 240 x 120 cm, which are held by 17 tensioning belts preventing the floor from shifting
- Including tape for marking the competition area
- Since wood is a natural product, the Aerobic floor may slightly vary in colour
- Dimensions: 12 x 12 m, height 7,5 cm

1790560	dimensions 12 x 12 m, height 7,5 cm
----------------	-------------------------------------

AEROBIC

PODIUM

COMPETITION PODIUM "RIO"

This competition podium has been featured at numerous of international championships and is recognized by the International Gymnastics Federation (FIG)

- Modern and solid
- According to the FIG-Specifications
- Constructed of modular single steel frames (200 x 100 cm)
- Equipped with stairs and anchor points for counterweights
- Ca. 1096 m² total area for one gymnastics competition
- Dimensions are individually adaptable according to competition needs
- Ideally suited for TV broadcasts, ideal presentation of athletes
- Greater equipment elasticity
- The podium is suitable for other sport events as well

SERVICE AND ADVISE FROM ONE SOURCE

SPIETH Gymnastics is well-known for the outstanding characteristics of its competition and training equipment. The equipment is being developed by our own research & development department with the input of scientific institutions and world-renowned coaches and athletes.

However, even the best equipment cannot be used properly unless it has been installed in the right manner and the right place. We also have our own in-house specialists that are experienced in this topic.

Regular maintenance by our SPIETH technicians help to identify wear and minor repairs in an early stage and can be fixed right away. Thereby the risk of injuries due to apparatus damages can be reduced and your equipment can continue to be used for a long time.

If you plan to build or renovate your hall, we advise you to contact us in an early planning phase. Our specialists will use their experience to prepare the installation of equipment for you in the most economic way. Not only do we advise you about your planned layout for your club but also on auxiliary constructions, which can be built-in when constructing the hall, thus reducing total costs considerably. We will also assist you in finding the right balance between the equipment, which you wish to have in your gym consistent with your budget and the planned utilization of your hall.

An experienced technician team will take care of the installation of the equipment on site. In short, we will assist you in realizing your optimum gym solution with minimal long-term costs, that meets your specific demands.

In summary: We support you in implementing your optimal training center with as minimal long-term cost, which is specially adapted to your needs and wishes.

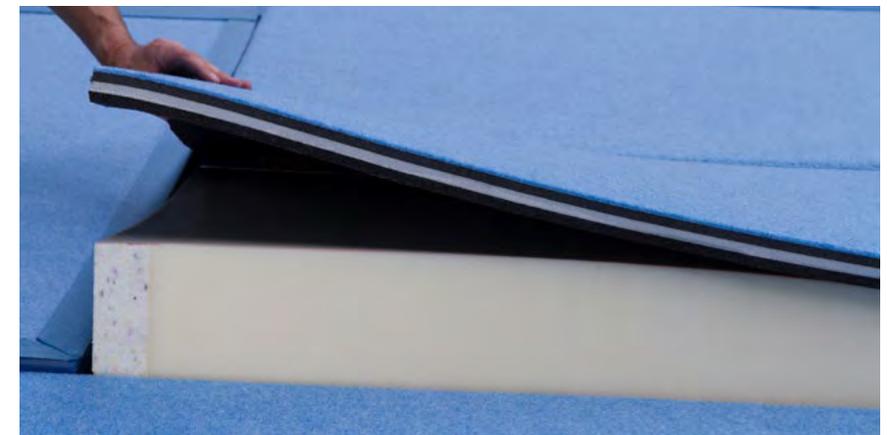

Please contact us and we will find an individual solution for you.

REMARKS

SPIETH does not recommend any modification of the equipment supplied. Thus, SPIETH is not responsible for any damages caused by modifications through improper manipulation. Any product modifications will negate our responsibility towards product liability.

All apparatuses with tensioning are supplied without floor anchoring. Before installation of apparatuses with tensioning it is necessary to check proper function, quality and solidity of all floor anchors.

Gymnastics equipment and mats have performance limits and materials wear off in certain period of time. All parts of equipment that are subject to heavy wear and tear should be inspected thoroughly in regular periods. This particularly concerns securing of adjustable parts and mechanisms, all kind of rails, rings etc. Deliveries are carried out according to valid FIG specifications at that time. Our general terms and conditions of sale, accessible on our SPIETH Website, apply to all our deliveries and services (<https://spieth-gymnastics.com/conditions-spieth-en/>).

SPIETH reserves the right of modification and adaption for its products. Although this catalogue has been prepared with the utmost care, we cannot assume any responsibility for any possible mistakes or any incorrect information.

The release of this catalogue replaces previous editions.
